Umar,2023-11-16 Exploring the contentious landscape of Nigeria s escalating violence this book describes the changing roles of traditional authorities in combatting contemporary security challenges Set against a backdrop of widespread security threats including insurgency land disputes communal violence regional independence movements and widespread criminal activities perhaps more than ever before Nigeria s conventional security infrastructure seems ill equipped for the job This book offers a fresh empirical analysis of the roles of traditional authorities including kings Ezes Obas and Emirs who are often hailed as potent alternatives to the state in security governance It complicates the assumption that these traditional leaders by virtue of their customary legitimacy and popular roots are singularly effective in preventing and managing violence Instead in exploring their creative adaptation to governance roles after a dramatic postcolonial downturn this book argues that traditional leaders can augment but not substitute the state in addressing insecurity This book s in depth analysis will be of interest to researchers and policy makers across African and security studies political science anthropology and
