Necessity Of Communism

Agnes Heller

Necessity Of Communism:

The Necessity of Communism John Middleton Murry, 1932 One is in the fullest sense of the word converted to communism It is a religion precisely as Roman Catholicism is a religion it has philosophy a morality a dogma In the author's view Communism is the religion of the future Through Communism the skeptical mind may enter a new world Every country will get the Communism it has deserved This is the immediate message of Mr Murray's book Karl Marx believed that England was the only country in Europe where Communism might come to pass peacefully Communism itself arose out of Marx's devoted and life long study of English conditions London not Moscow is the birthplace of Communism England not Russia its Galilee England has the chance to lead the world once more but only through Communism And Communism if it is not to come through collapse and undreamed of misery must be prepared for by an intellectual and moral revolution in a dedicated minority of individual men Revolution is inevitable Where will you have it In yourselves or in the world about you You must choose and choose now

The Communist Necessity J. Moufawad-Paul, 2014 There was a time when we proclaimed that we were part of a beautiful and fragmented chaos of affinity groups conflicted organizations disorganized rebels all of whom were somehow part of the same social movement that was greater than the sum of its parts We were more accurately a disorganized mob of enraged plebeians shaking our fists at a disciplined imperial army Years ago we spoke of social movementism but now it only makes sense to drop the social since this phase of confusion was incapable of understanding the social terrain Disparate unfocused and divided movements lack a unified intentionality they have proved themselves incapable of pursuing the necessity of communism The Communist Necessity is a polemical interrogation of the practice of social movementism that has enjoyed a normative status at the centres of capitalism Despite the fact that the name communism has been reclaimed by a variety of important intellectuals J Moufawad Paul argues that due to a failure to grapple with the concrete questions connected to historical moments of actually making revolution movementist praxis remains hegemonic More of a philosophical intervention than a historiography or political economy The Communist Necessity engages in a quick and pointed manner with a variety of authors and tendencies including Alain Badiou Jodi Dean the Invisible Committee Tikkun Th orie Communiste and others Moufawad Paul argues that a refusal to recognize contemporary revolutionary movements from the 1980s to the present results in the reification of a capitalist end of history discourse within this movementist conceptualization of theory and practice Originally written as a small essay on the left wing blog MLM Mayhem The Communist Necessity has been expanded into a pocket sized treatise that sketches out the boundaries of the movementist terrain as well as its contemporary ideologues so as to raise questions that may be uncomfortable for those who are still devoted particularly if they define themselves as marxist to movementist praxis Aware of his past affinity with social movementism and some apprehension of the problem of communist orthodoxy the author argues that the recognition of communism's necessity requires a new return to the revolutionary communist theories and
