**Negotiating Skills and Win in Business** Shabbir Hossain,2016-08-14 How To Master 13 Negotiating Skills and Win in Business There have been a few major failures in my 25 years of business that I have talked about on my podcast show a few times Admitting my own failure isn't easy to do but I knew in order to move on I would have to face my failure deal with it and put it behind me But more importantly analyze and pinpoint what and why I lost in those deals There is a valuable lesson to be learned in every failure Although there is a very high cost they are valuable and I took them to heart In 25 years I have owned leased operated bought and sold over 20 different types of businesses They have ranged from restaurant to wholesale route sales and everything in between Looking back I can say with confidence that all the ones I was successful at had one thing in common a great negotiation that leads to a great deal either in the lease rent or price This is the most essential skill needed for any new business Looking back on the ones I failed I know where I went wrong Again they all had one thing in common I was too eager and desperate to pay attention to the details and agreed too easily to the terms I was offered When I started in the business there wasn't a mentor or a book to read that taught me how to actually negotiate in business Rather I did what came naturally to me little did I know that a common sense approach to business negotiations is not the best idea It is really like a game of tough folks where the one who doesn't blink wins If this sounds strange that's because it is strange but that's the reality Over the years I learned to play the game of negotiation well as I had to practice it often in various business ventures Business Negotiation is one skill no one is born with nor should you learn on the go because the stakes are too high Looking back at my very first deal to the last one the journey has been painfully long and at times it cost me dearly But one thing I will say that most of the costly mistakes I made were limited to my early business life Sure the more you do the better you get at it In this book I have summarized 13 most vital must have skills I learned and practiced over the years on many deals These are the very skills that most top negotiators use in big businesses As you read them you will see and understand why they are so vital and essential to every business negotiation I have always been the type of person who learns best by examples because I'm a visual person I need to visualize and relate to a real life situation in order to completely understand the problem If you're like me then you will enjoy reading the real life business negotiation story I share in the last chapter and can actually visualize how the process works *Negotiating Skills in Engineering and*

### **Negotiation Skills in 7 simple steps**

Clare Dignall,2014-05-08 7 simple steps to flawless negotiations

*Negotiation Skills In A Week* Peter

Fleming,2012-03-23 Effective negotiation skills just got easier There was a time not that long ago when negotiation was seen in the main as the province of industrial relations folk and car sales advisers But no longer Repeated financial crises have squeezed profit margins and in some markets discouraged buyers from making marginal purchases or continuing habitual expenditure Managers have found themselves in the frontline of the expectation to achieve better value for money and the starting point for this is to shop around and explore the offers made by new suppliers and or to negotiate better deals with existing suppliers Even if your job doesn't involve negotiation then you might still be an active negotiator when replacing your car moving house or even selling last season's wardrobe The truth is that being a good negotiator has become a life skill enabling those who are good at it not just to save money but also to upgrade their computer television or lawnmower with little or no increase in outgoings and enhancing their reputation in the process Becoming an effective negotiator is certainly within the scope of the majority of people At its simplest it involves thinking out what you want planning how you'd like to get it and developing your powers of persuasion to convince other people that you are simply being reasonable This book will help you to plan to become a better negotiator through being better prepared for meetings planning clear and realistic objectives for a negotiation maintaining concentration and making logical proposals that create agreement in the other party Sunday Creating the right environment Monday Researching your objectives Tuesday People and places Wednesday Breaking the ice Thursday The agenda Friday Concluding Saturday Learning from your experiences

**Negotiating Skills** Jim Berry,2014-12-16 Negotiation is a practice that not everyone approves of it There are those

who hate it because they think it is too confrontation or simply they don't want to be bothered This book will show you how negotiations in everyday transactions do not necessarily have to be confrontational instead they can be fun Becoming a master negotiator therefore requires that you develop certain qualities such as problem solving abilities confidence and the flexibility to change tactic during the negotiation process Practice always makes perfect and the more time and resources you put into the negotiation planning the higher the chances that you will succeed and get what you want Remember that you are not the only one on the negotiation table but rather a party to a wide range of interests and perspectives Try to accommodate the views and concerns of the other people by listening carefully to what they are saying Do not try to win every argument because this can make you look aggressive and rude from the perspective of your opponent On the contrary strive to make your argument reasonable and fair across the board The guidelines illustrated in this book will teach you a new way of dealing with people regardless of how difficult or insensitive they are You will become a better negotiator in both the simple and complex day to day negotiations that many people fear In a negotiation process every person is significant and there is no ultimate decision maker Do not dictate what needs to be done and the perspective to be followed Instead win people over to your side through the simple tactic of communication skills Be open to positive criticism and do not take anything personal Being calm and composed will position you at a vantage point to win any negotiation
