**The Negro in Brazil** Arthur Ramos, 1939

**Blacks & Whites in São Paulo, Brazil, 1888-1988** George Reid

Andrews, 1991 For much of the twentieth century Brazil enjoyed an international reputation as a racial democracy but that image has been largely undermined in recent decades by research suggesting the existence of widespread racial inequality George Reid Andrews provides the first thoroughly documented history of Brazilian racial inequality from the abolition of slavery in 1888 up to the late 1980s showing how economic social and political changes in Brazil during the last one hundred years have shaped race relations No laws of segregation or apartheid exist in Brazil but by looking carefully at government policies data on employment mainstream and Afro Brazilian newspapers and a variety of other sources Andrews traces pervasive discrimination against Afro Brazilians over time He draws his evidence from the country's largest and most economically important state São Paulo showing how race relations were affected by its transformation from a plantation based economy to South America's most urban industrialized society The book focuses first on Afro Brazilians entry into the agricultural and urban working class after the abolition of slavery This transition Andrews argues was seriously hampered by state policies giving the many European immigrants of the period preference over black workers As immigration declined and these policies were overturned in the late 1920s black laborers began to be employed in agriculture and industry on nearly equal terms with whites Andrews then surveys efforts of blacks to move into the middle class during the 1900s He finds that informal racial solidarity among middle class whites has tended to exclude Afro Brazilians from the professions and other white collar jobs Andrews traces how discrimination throughout the century led Afro Brazilians to mobilize first through the antislavery movement of the 1880s then through such social and political organizations of the 1920s and 1930s as the Brazilian Black Front and finally through the anti racism movements of the 1970s and 1980s These recent movements have provoked much debate among Brazilians over their national image as a racial democracy It remains to be seen Andrews concludes whether that debate will result in increased opportunities for black Brazilians Winner of the 1993 Arthur P

comparative slavery in Brazil and the United States is reissued in the Wisconsin paperback edition making it accessible for all students of American and Latin American history and sociology Until Degler's groundbreaking work scholars were puzzled by the differing courses of slavery and race relations in the two countries Brazil never developed a system of rigid segregation such as appeared in the United States and blacks in Brazil were able to gain economically and retain far more of their African culture Rejecting the theory of Gilberto Freyre and Frank Tannenbaum that Brazilian slavery was more humane Degler instead points to a combination of demographic economic and cultural factors as the real reason for the differences In the early 1970s when studies in social history were beginning to blossom on the North American scene Carl Degler's prize winning contribution was a thoughtful provocative essay in comparative history Its thoughtfulness has not diminished with

the years Indeed it is as topical today as when it was first published The Brazilian experience with rapid industrialization and its attempt to restore democratic government indicates that the issues which Degler treated in the early 1970s are more pertinent than ever today Franklin W Knight Department of History Johns Hopkins University **Brazil, Mixture Or Massacre?** Abdias do Nascimento,1989 A penetrating analysis of Brazilian history politics art literature drama culture and religion make this the most authoritative Afro Brazilian perspective available **The Negro in Brazil** Arthur Ramos,1980

**Blackness Without Ethnicity** L. Sansone,2003-08-01 Blackness Without Ethnicity draws on fifteen years of his research in Bahia Rio Suriname and Amsterdam Sansone uses his findings to explore the very different ways that race and ethnicity are constructed in Brazil and the rest of Latin America He compares these Latin American conceptions of race to dominate notions of race that are defined by a black white polarity and clearly identifiable ethnicities formulations he sees as highly influenced by the US and to a lesser degree Western Europe Sansone argues that understanding more complex and ambiguous notions of culture and identity will expand the international discourse on race and move it away from American dominated notions that are not adequate to describe racial difference in other countries and also in the countries where the notions originated He also explores the effects of globalization on constructions of race **The Black Man in Slavery and Freedom in Colonial Brazil** A J R Russell-Wood,1982-09-30 **The Negro in Northern Brazil** Octavio da Costa Eduardo,1948 *The Negro in Brazil* Charles G.
