Negro Social and Political Thought, 1850-1920 Howard Brotz, 1966 Negro social and political thought 1850-1920. Representative texts. Ed. by H. Brotz ,1966 *Historically Black Colleges and Universities* Cynthia L. Jackson, Eleanor F. Nunn, 2003-09-16 A highly readable overview of the rich past of historically black colleges and universities and how their role in higher education is evolving for the future Historically black colleges and universities HBCUs have influenced African American lives and communities since 1837 Historically Black Colleges and Universities provides a past and present look at their role in higher education This volume addresses why these institutions exist how effective they ve been and if today s 103 HBCUs are still necessary Special attention is given to the years since 1954 and to desegregation cases such as Brown v Board of Education United States v Fordice and other judicial decisions The volume highlights government relations leadership and philanthropy as they apply to HBCUs Also a chapter provides a case study of the Historically Minority Universities Bioscience and Biotechnology Program Initiative and a final chapter suggests research agendas for the 21st century **Political Status of the Negro in the Age of FDR** Ralph J. Bunche, 2024-09-11 A Nobel Peace Prize winner s groundbreaking work of social science that offered one of the earliest portraits of Black life in twentieth century America This volume presents the essence of a massive report prepared in 1940 by a team headed by political scientist and civil rights leader Ralph J Bunche for the Carnegie Corporation s Survey of the Negro in America The report was used by Swedish social economist Gunnar Myrdal in writing his monumental An American Dilemma and it shaped Myrdal s treatment of the Black political experience As a valuable historical document it provides a backdrop against which we can measure change in the Black American s political status and interpret the origins and consequences of the second Reconstruction The Political Status of the Negro introduces essential information about political practices in the Southern states It offers insight into the historical economic sociological and psychological factors that accounted for these practices as well as some understanding of the myths stereotypes and symbols that contemporaries often used to explain and justify them The study s most enduring value lies in its wealth of personal interviews which were conducted in the South in the late 1930s and in its first hand impressions of the African Americans and Southern politics The book is divided into two parts The first contains Bunche s explanations comments and analytical writings on the subject the second includes almost all of the interviews and field reports To this text historian Dewey W Grantham added a comprehensive introduction that discusses Bunche and his work the preparation of the research manuscript and the book s role in Gunnar Myrdal s later work

African American Education Cynthia L. Jackson, 2001-05-04 A unique reference work providing information and resources on the main issues concerning the education of African Americans over the past two decades From 1954 to the present from preschool programs like Headstart to historically black colleges and universities African American Education A Reference Handbook explores the black educational experience Statistical analysis and anecdotal evidence along with interviews with

leading black educators help readers understand the African American perspective on such controversial issues as testing curriculum choice institutional approaches affirmative action and the effects of desegregation Readers will also discover how the striking incompatibility between early informal education experiences and later formal education results in a dichotomy that sets African Americans apart from other groups

Romance, Diaspora, and Black Atlantic Literature Yogita Goyal, 2010-04-22 *Romance Diaspora and Black Atlantic Literature* offers a rich interdisciplinary treatment of modern black literature and cultural history showing how debates over Africa in the works of major black writers generated productive models for imagining political agency Yogita Goyal analyzes the tensions between romance and realism in the literature of the African diaspora examining a remarkably diverse group of twentieth century authors including W E B Du Bois Chinua Achebe Richard Wright Ama Ata Aidoo and Caryl Phillips Shifting the center of black diaspora studies by considering Africa as constitutive of black modernity rather than its forgotten past Goyal argues that it is through the figure of romance that the possibility of diaspora is imagined across time and space Drawing on literature political history and postcolonial theory this significant addition to the cross cultural study of literatures will be of interest to scholars of African American studies African studies and American literary studies

W. E. B. Du Bois' Africa Taharka Ade, 2023-08-15 W E B Du Bois was one of the leading figures of Pan African thought and activism in the twentieth century As a sociologist Du Bois wrote much about the historical and social circumstances of African Americans while often acknowledging the African historical background of much of African American or Negro culture In 1946 Du Bois published *The World and Africa* which was a culmination of previous attempts at penning a narrative of African history beginning with his 1915 publication *The Negro* in which he included the social historical experience of African Americans within the continuity of African history This book delivers for the first time a comprehensive Afrocentric investigation and critique of Du Bois's writings on African history It argues that while Du Bois presented at the time a strong critique of the Eurocentric construction of African history many of Du Bois's descriptions and arguments about African people and history were likewise flawed with interpretations that projected the cultural subjectivities of Europe Further while Du Bois rightfully presents the historical relationship between African Americans and Africa as a justification for Pan African activism this book contends that Du Bois's failure to center African culture instead of race leads to superficial justifications for Pan African unity

[Race and Democracy in the Americas](#) Georgia A. Persons, 2018-12-07 *Race and Democracy in the Americas* examines dimensions of the comparative dynamics of race and ethnicity with a directed focus on the Americas most particularly Brazil and the United States Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora Both countries experienced prolonged enslavement of Africans and both now claim to be beacons of democracy for much of the developing world Both Afro Brazilians and African Americans have fielded major liberation movements against racism

and oppression yet both groups continue to experience considerable residual racial discrimination and displacement Brazil and the U S remain racialized societies though both officially purport to be otherwise The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how shapes life opportunities for African Americans and Afro Brazilians both oppressed by this most detrimental social construction The project that fueled this volume represented a rare opportunity for collaboration between Afro Brazilian scholars and their African American counterparts This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals Both groups share identities as scholars and activists for neither identity alone is sufficient to nourish the longings of their hearts nor of their consciences This volume also represents an all too rare opportunity to give voice and expression to the work of Afro Brazilian scholars Volume 9 of the National Political Science Review also carries a special tribute to Mack Henry Jones a senior black political scientist retiring from Atlanta University and honors Jones s legacy and continues his quest for understanding the nature and intricacies of oppression and possible paths to liberatio

Melissa S. Williams,2021-05-11 Does fair political representation for historically disadvantaged groups require their presence in legislative bodies The intuition that women are best represented by women and African Americans by other African Americans has deep historical roots Yet the conception of fair representation that prevails in American political culture and jurisprudence what Melissa Williams calls liberal representation concludes that the social identity of legislative representatives does not bear on their quality as representatives Liberal representation s slogan one person one vote concludes that the outcome of the electoral and legislative process is fair whatever it happens to be so long as no voter is systematically excluded Challenging this notion Williams maintains that fair representation is powerfully affected by the identity of legislators and whether some of them are actually members of the historically marginalized groups that are most in need of protection in our society Williams argues first that the distinctive voice of these groups should be audible within the legislative process Second she holds that the self representation of these groups is necessary to sustain their trust in democratic institutions The memory of state sponsored discrimination against these groups together with ongoing patterns of inequality along group lines provides both a reason to recognize group claims and a way of distinguishing stronger from weaker claims The book closes by proposing institutions that can secure fair representation for marginalized groups without compromising principles of democratic freedom and equality **United States and Canadian Publications and Theses on Africa** ,1970
