Radical Office Design Jeremy Myerson, Philip Ross, 2006 Traditional office work characterized by repetitive clerical tasks is rapidly giving way to knowledge work characterized by the creative application and exchange of information In response architects around the world are leaving aside the old cubicle grid to design innovative high tech offices that foster knowledge work and at the same time help workers balance the competing demands of colleagues customers and family The forty three exceptional workplaces profiled in this timely volume were all completed within the last six years and serve a wide variety of organizations both private and public small and large Examples range from the headquarters of an advertising firm where one enormous table seats all two hundred employees facilitating communication to a BMW plant where the factory production line runs through and above the administrative offices unifying the corporate community The authors skillfully distinguish the primary trends in contemporary office design by dividing their engagingly written case studies among four chapters each dedicated to a particular type of workplace Academics encourage the sharing of knowledge within a corporate structure Guilds allow the members of a profession to interact as peers Agoras bring the workplace closer to the marketplace and to civic life and Lodges combine the home and the office Two hundred vivid color photographs and fifty architectural drawings show how the featured architects have configured public areas meeting rooms and private work spaces to meet the needs of today s increasingly versatile and mobile workers The inclusion of an informative introduction which outlines the economic and technological factors driving the rapid evolution of contemporary workplace architecture further ensures that this attractive book will be an essential reference for everybody who has a hand in designing offices and thought provoking reading for everybody who works in one **Architectuur in Nederland** ,1998 Archis ,2004
