

# Introduction

1. The term 'neoconservatism', and its diminutive 'neocons', has been used in American politics, first, as a pejorative description that later was taken up affirmatively as a badge of political identity by those it was intended to disparage. Exactly when the term emerged is unclear.
2. What is evident and, perhaps, surprising, is that neoconservatism as a political movement, ideology or persuasion, is now well over thirty years old, with its theoretical roots in both the reaffirmation of classical political theory and the critique of modern liberalism, on the one hand, and reactions to recent events in American foreign policy, on the other.
3. In this respect, the reactions to the 1960s counter-culture and the politics of the New Left by the first generation of neoconservative intellectuals, including Irving Kristol, Daniel Bell, Norman Podhoretz, Daniel Patrick Moynihan, Gertrude Himmelfarb, Peter Berger, Nathan Glazer, Edward Shils and Seymour Martin Lipset, provide the historical grounds for the rejection of many features of modern liberal society and politics.
