Neon Boneyard Judy Natal, 2006 The garish glow of neon was part of what put Las Vegas on the map quite literally The city s most distinctive form of expression neon signs tell an elaborate story of the history of Las Vegas from their debut in 1929 at the onset of the Depression when their seductive tones lured travelers through the Mojave Desert to part with scarce dollars to today when their flickering glow is a vanishing facet of the gaudy spectacle that is contemporary Vegas Established in 1996 to preserve Las Vegas s underappreciated neon heritage the Neon Boneyard houses many of the city s historic casino signs on a three acre site at the edge of the city The core of the collection of unrestored signage came from the pioneering Young Electric Sign Company one of the first to produce neon signs in the area but in recent years it has grown through donations from businesses and individuals who appreciate the key role played by neon in the growth of Las Vegas Through Judy Natal s photographs the Neon Boneyard becomes a dynamic archaeological site that brings Vegas s past to life in startling ways The towering figure of Mr O Lucky becomes a home for the homeless while the crumpled sign of a wedding chapel reflects the faded dreams of a lost paradise Through such juxtapositions of success and failure of past and present Neon Boneyard Las Vegas A Z returns us to an earlier image of Vegas suffused with the warm commercial glow of neon lighting the desert and inventing modern nightlife **The Neon Graveyard** George Baxt, 1979-01-01 *The Sordid Secrets*

Trash Culture Gillian Pye,2010 In the late twentieth and early twenty first centuries concerns about the environment and the future of global capitalism have dominated political and social agendas worldwide The culture of excess underlying these concerns is particularly evident in the issue of trash which for environmentalists has been a negative category heavily implicated in the destruction of the natural world However in the context of the arts trash has long been seen as a rich aesthetic resource and more recently particularly under the influence of anthropology and archaeology it has been explored as a form of material culture that articulates modes of identity construction In the context of such shifting often ambiguous attitudes to the obsolete and the discarded this book offers a timely insight into their significance for representations of social and personal identity The essays in the book build on scholarship in cultural theory sociology and anthropology that suggests that social and personal experience is embedded in material culture but they also focus on the significance of trash as an aesthetic resource The volume illuminates some of the ways in which our relationship to trash has influenced and is influenced by cultural products including art architecture literature film and museum culture
