#### **Focus On:**

**100 Most Popular Fictional African-American People** Wikipedia contributors, [The Joy of Eating](#) Jane K.

Glenn, 2021-11-05 This volume explores our cultural celebration of food, blending lobster festivals, politicians, roadside eats, reality show chef showdowns, and gravity defying cakes into a deeper exploration of why people find so much joy in eating. In 1961, Julia Child introduced the American public to an entirely new joy infused approach to cooking and eating food. In doing so, she set in motion a food renaissance that is still in full bloom today. Over the last six decades, food has become an increasingly more diverse, prominent, and joyful point of cultural interest. *The Joy of Eating* discusses in detail the current golden age of food in contemporary American popular culture. Entries explore the proliferation of food themed television shows, documentaries, and networks; the booming popularity of celebrity chefs; unusual, exotic, decadent, creative, and even mundane food trends; and cultural celebrations of food such as in festivals and music. The volume provides depth and academic gravity by tying each entry into broader themes and larger contexts in relation to a food themed reality show, for example, discussing the show's popularity in direct relation to a significant economic event, providing a brief history behind popular foods and types of cuisines, and tracing the evolution of our understanding of diet and nutrition among other explications.

**Watching TV** Harry Castleman, Walter J. Podrazik, 2024-12-16 Castleman and Podrazik present a season-by-season narrative that encompasses the eras of American television from the beginning in broadcast through cable and now streaming. They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion-dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime time schedule grids for every season, date box timelines, highlighted key text, and selected photos. Full of facts, firsts, insights, and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television, and reading it is akin to channel surfing through history. The fourth edition updates the story into the 2020s and looks ahead to the next waves of change. This new edition is the first to also be available in a digital format.

An entertainment and tech insider, YouTube's chief business officer, delivers the first detailed account of the rise of YouTube, the creative minds who have capitalized on it to become pop culture stars, and how streaming video is revolutionizing the media world. In the past ten years, the internet video platform YouTube has changed media and entertainment as profoundly as the invention of film, radio, and television did more than six decades earlier. *Streampunks* is a firsthand account of this upstart company, examining how it evolved and where it will take us next. Sharing behind-the-scenes stories of YouTube's most influential stars, *Streampunks* like Tyler Oakley, Lilly Singh, and Casey Neistat, and the dealmakers brokering the future of entertainment like Scooter Braun and Shane Smith. Robert Kyncl uses his experiences at three of the most innovative media companies—HBO, Netflix, and YouTube—to tell the story of streaming video and this modern pop culture juggernaut. Collaborating with Google speechwriter Maany Peyvan, Kyncl explains how the new rules of entertainment are being written and how and why the media landscape is radically changing while giving aspiring *Streampunks* some necessary advice to launch their own new media careers.
