Model Shipwright 124 Issue 124:

Model Shipwright 124 John Bowen, 2004-01-16 This quarterly journal since its launch in 1972 has been regarded as the world's leading ship modelling publication. The mixture of articles, reviews, news and comment from modelmakers world wide provides the best and most detailed information available anywhere and is enhanced with authentic plans, clear diagrams and many photographs. Although the miniature ships are the most important feature of the journal, with articles explaining how individual models were researched and constructed, the other aspects of model making have not been forgotten: dioramas, modelling techniques, tools and recent events are all covered. Each issue of the journal comes complete with a free large scale modeller's draught with accompanying modelling notes, illustrations and specifications for a featured vessel. **Labour**

Co-partnership, 1904 The Battlecruiser HMS HOOD Bruce Taylor, 2008-04-30 The battlecruiser HMS Hood is one of the great warships of history. Unmatched for beauty, unequalled for size, for twenty years the Hood was the glory ship of the Royal Navy, flying the flag across the world in the twilight years of the British Empire. Here, in words, photos and colour illustrations, is the story of her life, her work and her people, from keel laying on the Clyde in 1916 to destruction at the hands of the Bismarck in 1941. Among the eye-catching strengths of the book is a unique gallery of photos, including stills from a recently discovered piece of colour footage of the ship, plus a spectacular set of computer-generated images of both the exterior and interior by the world's leading exponent of the art, a man who worked with the film director James Cameron of Titanic fame. A wealth of new information on Hood's structure and operation makes it essential reading for the enthusiast modeller and historian alike. Hugely successful from its first publication, this is the third printing of the ultimate book on the ultimate ship of the pre-war era. **"The" Fisheries Exhibition Literature**, 1884 *The Engineer*, 1882 *Engineering*, 1908
