Modern Colonization

Philip Van Ness Myers

Modern Colonization:

Modern Colonization R.J. Harrison Church, 2025-10-01 First published in 1951 Modern Colonization breaks new ground in British geographical literature since it aims at outlining the geographical factors in colonization particularly that of the tropics French geographers have contributed much to what they have termed colonial geography but this is the first British study and follows a plan different from that of any French writer The first chapters review the unfortunate lack of our work in this field and define the content of the subject geographical factors in the evolution of past and present empires are briefly summarized Succeeding chapters are devoted to the physical social and economic geography of colonization including colonial transport Finally some political aspects are reviewed such as colonial frontiers and colonies in world strategy

Modern Colonization by Medical Intervention Nicole Trujillo-Pagan, 2013-09-12 Modern Colonization by Medical Intervention adds to our understanding of the political and economic transformations establishing colonial modernity in Puerto Rico By focusing on influential physicians clinical work and their access to a remote and inaccessible rural population this volume details how rural areas suffered the ravages of social dislocation unemployment and hunger The colonial administration's hookworm campaign involved many Puerto Rican physicians in complex struggles with other elites rural peasants and U.S. colonial administrators for political legitimacy Puerto Rican physicians did not gain the professional autonomy their counterparts in the United States enjoyed Instead they became centrally implicated in the struggle between labor and capital enforcing the island's subordination to a colonial modernity and the development of capitalism on the island

Historical Archaeology of Early Modern Colonialism in Asia-Pacific Maria Cruz Berrocal, Cheng-hwa Tsang, 2017-12-28 The essential source for scholarly reassessment of the Asia Pacific region's diverse and significant archaeology and history James P. Delgado coauthor of *The Maritime Landscape of the Isthmus of Panama* Underpins a nuanced picture of Asia Pacific that shows how the activities of the Chinese and Japanese in East Asia the spread of Islam from South Asia and the efforts of the Iberians and especially the Spanish from southern Europe ushered in a world of complex interaction and rapid and often profound change in local regional and wider cultural patterns Ian Lilley editor of *Archaeology of Oceania Australia and the Pacific Islands* The history of Asia Pacific since 1500 has traditionally been told with Europe as the main player ushering in a globalized capitalist world But these volumes help decentralize that global history revealing that preexisting trade networks and local authorities influenced the region before and long after Europeans arrived In the volume *The Southwest Pacific and Oceanian Regions* case studies from Alofi Vanuatu the Marianas Hawaii Guam and Taiwan compare the development of colonialism across different islands Contributors discuss human settlement before the arrival of Dutch French British and Spanish explorers tracing major exchange routes that were active as early as the tenth century They highlight rarely examined sixteenth and seventeenth century encounters between indigenous populations and Europeans and draw attention to how cross cultural interaction impacted the local peoples of Oceania The volume *The Asia Pacific Region* looks at

colonialism in the Philippines China Japan and Vietnam emphasizing the robust trans regional networks that existed before European contact Southeast Asia had long been influenced by Buddhist Hindu and Muslim traders in ways that helped build the region's ethnic and political divisions. Essays show the complexity and significance of maritime trade during European colonization by investigating galleon wrecks in Manila Japan's porcelain exports and Spanish coins discovered off China's coast. Packed with archaeological and historical evidence from both land and underwater sites impressive in geographical scope and featuring perspectives of scholars from many different countries and traditions these volumes illuminate the often misunderstood nature of early colonialism in Asia Pacific.

Freedom, Imprisonment, and Slavery in the Pre-Modern World Albrecht Classen, 2021-04-19 Contrary to common assumptions medieval and early modern writers and poets often addressed the high value of freedom whether we think of such fable authors as Marie de France or Ulrich Bonerius. Similarly medieval history knows of numerous struggles by various peoples to maintain their own freedom or political independence. Nevertheless as this study illustrates throughout the pre modern period the loss of freedom could happen quite easily affecting high and low including kings and princes and there are many literary texts and historical

documents that address the problems of imprisonment and even enslavement Georgius of Hungary Johann Schiltberger Hans Ulrich Krafft etc Simultaneously philosophers and theologians discussed intensively the fundamental question regarding free will e g Augustine and political freedom e g John of Salisbury Moreover quite a large number of major pre modern poets spent a long time in prison where they composed some of their major works Boethius Marco Polo Charles d Orlans Thomas Malory etc This book brings to light a vast range of relevant sources that confirm the existence of this fundamental and impactful discourse on freedom imprisonment and enslavement Prof Albrecht Classen is the joint winner of The Literary Encyclopedia book prize for 2023 Literatures written in languages other than English for this book https://www.litencyc.com/book_prizes_2023.php *The Ashgate Research Companion to Modern Imperial Histories* Professor John Marriott, Professor Philippa Levine, 2013-07-28 Taking a broad comparative approach to imperial experiences this volume provides an authoritative survey of the latest research into the histories of modern empires The focus is on the era of modern imperial history dating approximately from the early sixteenth century to the present Such a periodization enables the volume to include the European experience of imperial expansion and settlement important historical experiences outside the west such as those of Russia Japan and China the collapse of European empires attendant on decolonization in the post World War II period and the contemporary example of North America The companion is divided into three sections Times Spaces and Themes which allows chronological geographical and thematical approaches to be successfully combined In so doing this volume provides a unique research tool that will be invaluable to all students and scholars interested in the history of empires imperialism and colonialism in the post classical world **Colonies of the World** Edward John Payne, 1928
