## Modern Poetics:

**Modern Poetry after Modernism** James Longenbach, 1997-11-27 In this book James Longenbach develops a fresh approach to major American poetry after modernism Rethinking the influential breakthrough narrative the oft told story of postmodern poets throwing off their modernist shackles in the 1950s Longenbach offers a more nuanced perspective Reading a diverse range of poets John Ashbery Elizabeth Bishop Amy Clampitt Jorie Graham Richard Howard Randall Jarrell Robert Lowell Robert Pinsky and Richard Wilbur Longenbach reveals that American poets since mid century have not so much disowned their modernist past as extended elements of modernism that other readers have suppressed or neglected to see In the process Longenbach allows readers to experience the wide variety of poetries written in our time without asking us to choose between them

**Ghostlier Demarcations** Michael Davidson, 2022-05-13 Why do modern poets quote from dictionaries in their poems How has the tape recorder changed the poet's voice What has shopping to do with Gertrude Stein's aesthetics These and other questions form the core of Ghostlier Demarcations a study of modern poetry as a material medium One of today's most respected critics of twentieth century poetry and poetics Michael Davidson argues that literary materiality has been dominated by an ideology of modernism based on the ideal of the autonomous work of art which has hindered our ability to read poetry as a socially critical medium By focusing on writing as a palimpsest involving numerous layers of materiality from the holograph manuscript to the printed book Davidson exposes modern poetry's engagement with larger historical forces The palimpsest that results is less a poem than an arrested stage of writing in whose layers can be discerned ghostly traces of other texts This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

**Modern Visual Poetry** Willard Bohn, 2001 Far from frivolous playthings modern visual poems represent serious experiments Together with other members of the avant grade the visual poets sought to restructure the basic vision of reality that they inherited from their predecessors This statement describes contemporary visual poets as well who like their earlier colleagues strive to say things that are more meaningful in ways that are more meaningful **BOOK JACKET** **The Poetics of the Everyday** Siobhan Phillips, 2010 Wallace Stevens once described the malady of the quotidian lamenting the dull weight of everyday regimen Yet he would later hail that which is always beginning over and over recognizing if not celebrating the possibility of fresh invention Focusing on the poems of Wallace Stevens Robert Frost Elizabeth Bishop and James Merrill Siobhan Phillips positions everyday time as a vital category in modernist aesthetics American literature and poetic theory She eloquently reveals how through particular but related means each of these poets converts the necessity of quotidian experience into an aesthetic and experiential opportunity In Stevens Phillips analyzes the implications of cyclic dualism In Frost she explains the theoretical depth of a

habitual middle way In Bishop s work she identifies the attempt to turn recurrent mornings into a ceremony rather than a sentence and in Merrill she shows how cosmic theories rely on daily habits Phillips ultimately demonstrates that a poetics of everyday time contributes not only to a richer understanding of these four writers but also to descriptions of their era estimations of their genre and ongoing reconfigurations of the issues that literature reflects and illuminates Missing

Measures Timothy Steele,Clara Gyorgyey,1990-01-01 Examines the departure from meter and rhyme in modern poetry and the increased use of free verse **Left of Poetry** Sarah Ehlers,2019-04-11 In this incisive study Sarah Ehlers returns to the Depression era United States in order to unsettle longstanding ideas about poetry and emerging approaches to poetics By bringing to light a range of archival materials and theories about poetry that emerged on the 1930s left Ehlers reimagines the historical formation of modern poetics Offering new and challenging readings of prominent figures such as Langston Hughes Muriel Rukeyser and Jacques Roumain and uncovering the contributions of lesser known writers such as Genevieve Taggard and Martha Millet Ehlers illuminates an aesthetically and geographically diverse matrix of schools and movements Resisting the dismissal of thirties left writing as mere propaganda the book reveals how communist affiliated poets experimented with poetic modes such as lyric and documentary and genres including songs ballads and nursery rhymes in ways that challenged existing frameworks for understanding the relationships among poetic form political commitment and historical transformation As Ehlers shows Depression left movements and their international connections are crucial for understanding both the history of modern poetry and the role of poetic thought in conceptualizing historical change

**Modern Poets on Modern Poetry** James Scully,1966 Includes essays by W B Yeats Ezra Pound Robert Frost T S Eliot William Carlos Williams Gerard Manley Hopkins John Crowe Ransom Marianne Moore E E Cummings Wallace Stevens Hart Crane W H Auden Dylan Thomas David Jones Robert Lowell and Charles Olson Modern Poetics James Scully,1965 Great modern poets from Yeats to Lowell discuss their craft *At the Turn of a Civilization* Kathleen Henderson Staudt,1994 At the turn of a civilization examines Jones in the context of modernism comparing his vision of history as an order of signs to T S Eliot s nostalgia for tradition and Ezra Pound s call for a new paideuma Jones believed that in the act of making art that embodies and re calls the past the poet affirms even creates an abiding continuity with what is deepest and most valuable in human experience even in a world overrun by industrialism and imperialism This sacramentalist view of poetry informs Jones s use of myth and history his use of masculine and feminine imagery and his anti imperialist vision **Victorian and**

**Modern Poetics** Carol T. Christ,1984 Expressivity in Modern Poetry Donald Wellman,2019-02-26 Expressivity in Modern Poetry explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural

neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams Aime Cesaire and Jose Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman's purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism Expressivity in Modern Poetry offers a new reading of the relation between twentieth century modernism and contemporary poetic practice
