Fortna, Elizabeth B. Frierson, 2006-04-06

The Modern Middle East is a collection of translated sources covering the period from 1700 to the present. Sources include official and private archives, the periodical press, memoirs, western journalists and travellers' accounts, literature and official reports including statistical data. Each document has been prefaced, translated and annotated by a specialist in the particular history and culture from which it was drawn. Enough information is provided so that every student can appreciate the value of a document and begin a further exploration either of its specific historical context or its relationship to broader themes in modern Middle Eastern history whilst scholars will find it of value for its use in teaching and discussion. Themes covered include the expansion of state power, changing gender roles, religious revival, nationalist mobilization, increasing participation in a wider global culture and economy and the redefinition of traditions and identities.

**Struggle and Survival in the Modern Middle East** Edmund Burke (III), Edmund Burke (III.), 1993 Until now we have known very little of the lives of ordinary Middle Eastern men and women despite extensive research on the modern Middle East. With this collection of essays the life stories of peasants, villagers, pastoralists and urbanites can finally be heard no more. Will our view of the Middle East be seen only over the shoulders of the elite? These twenty-four biographies are drawn from the entire Middle East from Morocco to Afghanistan and provide vantage points from which to understand modern Middle Eastern history from the bottom up. Spanning the past 150 years and reflecting important transformations the stories challenge elite centered accounts of what has occurred in the Middle East and illuminate hidden corners of a largely unrecorded world. The essays, divided chronologically, provide a comprehensive framework for those unfamiliar with Middle Eastern social history. **Pre Colonial Lives** covers the period from 1850 until World War I. **Colonial Lives** chronicles the beginning of European rule and **Contemporary Lives** relates the massive changes of the postwar era. Through them we see how specific ecologies, ways of life, ethnic class and gender situations can shape individual human action. **A History Of The Modern Middle East** William L. Cleveland, 1994-01-11 The rise of the Safavids and Ottomans to the recent Gulf war.

New to this edition Every chapter has been thoroughly revised to cover all of the major changes in the region since the uprisings of 2011. The Overview section now contains a chapter on religion, society and politics in the Middle East that examines the role of both Islam and Judaism.
