## **Modern Poetic Practice:**

*How to Profit from that Impulse* Lucia Trent, Ralph Cheyney, Benjamin Francis Musser, 1928      *Onward* Peter Baker, 1996 *Onward Contemporary Poetry and Poetics* is an anthology of statements on poetics by twenty contemporary North American poets along with selections from their poetry The poets collected here represent the forefront of engaged experimental poetic practice and their statements vary from the extended essay form to collage assemblages of various prose and poetically charged forms These explorations of poetics lead to intersections of thought and practice both among themselves and with other recently published poetry anthologies      Modern Poetic Practice Peter Baker, 1986 This book attempts to develop a generative criticism of poetic practice The order of presentation follows a certain model for how the poem comes into being Poetic practice as it is actualized in the work of the creative imagination stems from memory as the place where the poem arises among the conflicts of the imagination absence or the loss which weighs on the utterance and gives it urgency desire as the force structuring the poem according to the subject's need knowing or how the subject's experience of the world and other people finds expression and style or how the poem exemplifies a compassionate understanding Poets whose work is examined include Hardy, Mallarmé, Williams, Ungaretti, Apollinaire, Saint John Perse, John Ashbery and Frank O'Hara      Expressivity in Modern Poetry Donald Wellman, 2019-02-26 *Expressivity in Modern Poetry* explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams, Aimé Césaire and José Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman's purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism *Expressivity in Modern Poetry* offers a new reading of the relation between twentieth century modernism and contemporary poetic practice      *Poetic Theory, Poetic Practice* Robert E.
