Nebula Maker And Four Encounters:

Nebula Maker ; & Four Encounters Olaf Stapledon, 1983-01-01 To science fiction romaner *Nebula Maker ; & Four Encounters* Olaf Stapledon, 1983 To science fiction romaner Olaf Stapledon Robert Crossley, 1994-07-01 William Olaf Stapledon is best remembered for the extraordinary works of speculative fiction he published between 1930 and 1950 As a novelist he was known as the spokesman for the Age of Einstein and has influenced writers as diverse as Virginia Woolf Arthur C Clarke and Doris Lessing This biography is the first to draw on a vast body of unpublished and private documents interviews correspondence archival material and papers in private hands to reveal fully the internal struggles that shaped Stapledon s life and reclaim for public attention a distinctive voice of the modern era Late in his life in an unpublished letter to the future Stapledon unwittingly provided the rationale for his biography It is just possible that my very obscurity may fit me to speak more faithfully for my period than any of its great unique personalities A pacifist in World War I an advocate of European unity and world government one of the first teachers in the Workers Educational Association and an early protestor against apartheid Stapledon turned utopian beliefs into practical politics With roots in the shipping worlds of Devon Liverpool and the Suez Canal he was transformed from a self described provincial on the margins of English literary and political life into a visionary idealist who attracted the attention of scientists journalists and novelists and given his left wing political affiliations even the F B I Stapledon s novels Last and First Men Star Maker Odd John and Sirius have gathered a passionate following and they have seldom been out of print in the last twenty five years But the personal experiences and political commitments that shaped this creative work have until now barely been known Robert Crossley s work reveals how in public and in private in his social activism as in his fiction Olaf Stapledon embodied many of the modern era s anxieties and hopes that allow his works to continue to speak to and for the future **Darwin Among The Machines** George B. Dyson, 2012-09-04 As timely now as it was when it was first published in 1997 Darwin Among the Machines tells the story of humankind s long journey into the digital age Historian of technology George Dyson traces the course of the information revolution illuminating the lives and work of visionaries from Thomas Hobbes to John von Neumann who foresaw the development of artificial intelligence artificial life and artificial mind Weaving a convincing occasionally frightening narrative of the evolution of the global network Dyson explores the limits of Darwinian evolution to suggest what lies ahead Computer programs and worldwide networks are combining to produce an evolutionary theater in which the distinctions between nature and technology are increasingly obscured he argues We are living in the midst of an experiment one that echoes the prehistory of human intelligence and the origins of life Now in a new paperback edition this classic work on the emergence of collective mechanical intelligence will resonate for generations to come **Olaf Stapledon** Harvey J. Satty, Curtis C. Smith, 1984-10-24 Harvey J Satty and Curtis C Smith have painstakingly assembled a complete bibliographic description of the literary career of an author they rank among the giants of twentieth century science fiction Following a biographical

preface they have recorded all of Stapledon's independent English language publications. In addition to complete descriptions of all first editions, citations are given for later editions, omnibus volumes, and books to which Stapledon contributed chapters or poems. The dust jackets of all first editions and books to which Stapledon contributed are described in detail, giving the reader unique insight into the manner in which Stapledon's books have been presented. A previously unpublished Stapledon work, *The Peak and the Town*, is included in the bibliography. An allegorical autobiography depicts the author's view of his own life. A brief secondary bibliography concludes the book. The comprehensive author index provides further access to this bibliography of the intricate body of Stapledon's work.

Stellar Engineering Greg Matloff, C. Bangs, 2019-04-01. In terms of the scale of the galaxy, both in space and time, we humans are newcomers. Though we are newly on the scene, we are already thinking about how to create large structures in space. Recently, analysis of data from one of the stars in the Kepler data set has led to speculation regarding huge artificial structures called Stapledon Dyson Spheres, constructed by advanced extraterrestrial civilizations. The NASA Kepler space observatory has been observing light curves of about 100,000 stars in the constellations of Cygnus and Lyre. This star, popularly dubbed Tabby's Star, after the first name of the astronomer leading one of the data reduction teams, shows intriguing periodic dips in its luminosity. *Stellar Engineering* starts by considering terrestrial organisms and early humans who have constructed on their scale megastructures and continues with a history of the development of the stellar engineering concept. Kepler data on the subject star is reviewed, as is observational data on other possible Stapledon Dyson Sphere candidates. Possible applications of such enormous constructs are discussed, as well as the intriguing speculation that we might live in a Stapledon Dyson swarm of alien space habitats within our Solar System's Kuiper Belt. The chapter frontispiece art illuminates the ideas presented.

Isaac Asimov's Science Fiction Magazine, 1983-07. *Extrapolation*, 1983. Science-fiction Studies, 2004. *Amazing*, 1983-11. **Kirkus Reviews**, 1983. Adult books are categorized by genre: i.e. fiction, mystery, science fiction, nonfiction. Along with bibliographic information, the expected date of publication and the names of literary agents for individual titles are provided. Starred reviews serve several functions. In the adult section, they mark potential bestsellers, major promotions, book club selections, and just very good books. In the children's section, they denote books of very high quality. The unsigned reviews manage to be discerning and, sometimes, quite critical.

Science Fiction and Fantasy Book Review Index, 1984. *The Legacy of Olaf Stapledon* Patrick McCarthy, Charles Elkins, Martin Greenberg, 1989-01-10. Although better known today for such classic and influential science fiction novels as *Last and First Men*, *Odd John*, *Star Maker*, and *Sirius*, Olaf Stapledon also wrote eight other science fiction books, seven volumes of philosophy and social criticism, and hundreds of reviews, lectures, and articles. Common to all his works is a moral vision that is characterized by ecstatic joy and revolutionary zeal, though tempered by detachment and skepticism. This is the first book collection of original essays devoted entirely to Stapledon. Where previous critical interpretation has concentrated on individual works by the author, these essays deal with larger issues in Stapledon's

writings and with his relationship to such forces as Marxism and literary modernism The articles develop new avenues for the exploration of Stapledon s work focusing on philosophical linguistic political and structural elements and showing how Stapledon s non fictional writing may illuminate aspects of the fiction In addition the book includes Stapledon s hitherto unpublished manuscript Letters to the Future as well as a primary and secondary bibliography An important contribution to the study of science fiction and fantasy The Legacy of Olaf Stapledon will be of interest to scholars and students of Stapledon and of the genre **Twentieth-century Science Fiction Writers** ,1986 **The Publishers' Trade List Annual** ,1984

American Book Publishing Record ,1984-04 **A Handbook of Contemporary Fiction for Public Libraries and School Libraries** Mary K. Biagini,Judith Hartzler,1989 Provides overviews of the most popular genres and the most important critically acclaimed authors of world literature lists of specialized selection sources and chronological listings of the novels and short stories of more than 1 100 authors **Science Fiction Book Review Index** H. W. Hall,1975

Paperbound Books in Print ,1983 *Nebula Maker* Olaf Stapledon,2013-10-02 The narrator of Nebula Maker stands on a hill and sees a vision that leads him to the birth of the universe He witnesses the creation of the nebulae and the formation of galactic communities as well as the flowering of the personalities of the nebulae The establishment of pacific and militaristic camps and their relationship leads to events of cosmic strife not unlike the history of our world in the twentieth century
