Necessary Heresies:

Necessary Heresies Peter Cameron,1993 Collection of 30 papers on aspects of Christianity which had their origin in sermons and other addresses The opening essay a sermon on the place of women in Christianity resulted in the author being found guilty of heresy by the Presbyterian Church of Australia Many of the essays challenge fundamentalist notions of the Bible and Christianity The author is principal of St Andrew s College at the University of Sydney He has studied both law and theology and worked as a public prosecutor and as a lecturer in New Testament studies **Necessary Heresies** Peter Scott Cameron,1993 *The Church of England pronounced heretical, by the promoters of a petition against the consecration of dr. The Making of Modern German Christology, 1750-1990, Second Edition Alister E. McGrath,2005-08-26 The Making of Modern German Christology is a reliable and readable introduction to the central themes and personalities of modern German Christology Germany and northern Switzerland have been the source of a fertile theological tradition since the beginning of the Protestant Reformation in the sixteenth century Moreover the Enlightenment seems to have had its deepest theological impact in Germany and on one area of theology in particular the person and work of Christ Now that chapter in church history seems to be coming to a close with a shift in theological emphasis away from the Continent to North America This book revised and updated from an earlier British edition is therefore a survey of that major chapter in modern theology for students and informed laypeople

Scientific Theology: Reality Alister E. McGrath,2007-01-23 The second volume of an extended and systematic exploration of the relation between Christian theology and the natural sciences focussing on the examination and defense of theological realism **Sermons on Various Subjects of Christian Doctrine and Duty** Nathanael Emmons,1923

and agnostics Christianity today is anything but monolithic or univocal In The Oxford Companion to Christian Thought general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays

Deadly Disclosures William De Maria, 1999 Australian whistleblowers like miners with lights on their hats take us into a world of wrong doing that few of us know or want to believe exists *Deadly Disclosures* is a provocative analysis of the degeneration of public ethics in Australia William De Maria s attack on public wrong doing is carried on the wings of case studies of Australians who have blown the whistle in order to improve ethical standards and suffered terribly for their efforts His book paints an alarming picture of Australian institutions and workplaces where managers and employees alike turn a blind eye to wrong doing and victimise the minority who rock the boat
