Lafayette,2018-11-04 THE EVIL VERSES OF THE BIBLE AND WHY THE BIBLICAL GOD IS WORSE THAN HITLER The evil nature of Yahweh 5th Edition Revised and Expanded Published by Times Square Press New York The Evil And Bloody Nature Of Our Biblical God This is exactly the delicate fragile and controversial topic we will be exploring discussing and explaining in this treatise Jewish Christians Rabbis priests bishops missionaries vicars pastors reverends theologians preachers imams tele evangelists and your honorable religion s teacher don t want you to read this book    *Creation and Evolution* Alan Hayward,2005-01-26 Even non Christian scientists are attacking the traditional evolutionary theory still taught in many schools as fact In Creation and Evolution British physicist Dr Alan Hayward draws evidence solely from these non Christian researchers to discredit gradual evolution and Darwin s mechanism of natural selection Hayward also examines in detail young earth theories flood geology and geological testimony to an ancient earth In the end he suggests a surprising interpretation of Genesis that argues for both a historical Adam and creation over eons of time Bowing neither to theistic evolution nor scientific creationism Hayward writes from the perspective of a Christian physicist committed both to a high view of Scripture and to rigorous honesty with scientific data    **Perspectives on Science and Christian Faith** ,1999

**The Genesis Flood Revisited** Andrew Snelling,2022-10-25 Modeled after the 1961 ground breaking book The Genesis Flood by Drs Whitcomb and Morris this detailed work builds on that classic volume with new insights from decades of work by the author Dr Andrew Snelling and numerous colleagues This recent revolution in geology and the explosion in geological research have established an even firmer basis for understanding the biblical Flood with a God honoring foundation the absolute authority and inerrancy of God s Word Examine details of the Creation Week as it builds a solid scriptural case for the Flood s catastrophic nature and global extent Find decisive answers to many questions about the Flood and Noah s Ark its construction and the animals taken onboard Delve deeply into astonishing geological details that unfold from the early chapters of Genesis including the Creation Week and the pre Flood world Explore detailed evidence and a concise informative 30 page color section with diagrams maps and more Dr Snelling jettisons the faulty evolutionary uniformitarian assumptions used by most geologists and instead interprets compelling new geological and observed field data within the biblical framework for the earth s history He also demonstrates that fossils were catastrophically buried in sedimentary layers being deposited rapidly on a global scale on the continental plates derived from the violent rifting apart of the original supercontinent His work demolishes radiometric dating the icon of the millions of years dogma and builds a thoroughly powerful case for a young earth that explains many geological features such as varves evaporites coal oil chalk granites and more that biblical skeptics sadly have used to scoff at God s Word Discover the powerful truth behind the earth s most enduring mysteries     *Contemporary Issues in Science & Christian Faith* American Scientific Affiliation,1992     Who's who in Theology and Science ,1996     **Origins** Brian Hills,2003 As its title suggests Origins cosmology evolution and creation presents the reader with a critical analysis of the subject of Origins and assesses the current state of the evolution versus creation debate It should appeal to anyone interested in the issue of origins but assumes the reader has a basic scientific background The book is written in four parts Part I undertakes a critical appraisal of current cosmologies and argues that despite their popularity the big bang and inflation models are inconsistent with a number of key observations including those pertaining to quasar and stellar red shifts Alternative ideas based on Quasi steady state inertia and plasma cosmologies are considered and it is concluded that our current ideas about the true nature of mass space and time are still woefully

inadequate A similar systematic approach is taken to the origin of galaxies stars and planetary systems basing the analysis on a comparison of the latest theories with observational data Part II progresses to the Earth itself and considers theories for the origin of the Earths internal structure the atmosphere and oceans Part III considers the various theories about the origin of life and it is concluded that our current evolutionary ideas about the origin of living cells are highly improbable Recent results from the rapidly developing field of molecular phylogenetics are discussed Part IV addresses the controversial issue of human origins The analysis begins with the key fossil evidence for the evolution of *Homo sapiens* from *Australopithecus* and proceeds to the more recent molecular data from mitochondrial DNA analysis The discussion then broadens to include archaeological and historical data pertaining to the spread of *Homo sapiens* throughout the world and it is concluded that once again current evolutionary ideas fail to provide a consistent explanation of the data

**Genesis, Creation, and Creationism** Lloyd R. Bailey, 1993 Creationism is an ardently proclaimed and widely held point of view involving both scientific and biblical data While much has been written about scientific creationism much less is available about its counterpoint biblical creationism This book provides this much needed evaluation of creationism by uniquely allowing the Bible to speak for itself **Genesis Creation and Creationism** is a thought provoking study on the relationship of science and religion that speaks to all Christian denominations It provides excellent resource material for high school science classes religion classes and for seminarians engaged in biblical studies

**Creation and Time** Hugh Norman Ross, 1994 How can we love the Lord our God with all our heart soul mind and strength if we must separate our minds from our faith asks Dr Hugh Ross In **CREATION AND TIME** Dr Ross provides a solution to the creation date controversy that requires no compromise by either the scientist trusting in the facts of nature or the Christian holding to the inerrancy of Scripture
