## **Nehru A Contemporary Estimate:**

**Nehru** Walter Crocker, 2011-11-20 Elegant perceptive and startlingly prophetic Nehru A Contemporary s Estimate is one of the finest accounts of Nehru ever written Walter Crocker the Australian high commissioner to India admired Nehru the man his grace style intelligence and energy and was deeply critical of many of his political decisions the invasion of Goa India s Kashmir policy the Five Year Plans This book written shortly after Nehru s death is full of invaluable first hand observations about the man and his politics Many of Crocker s points too especially the implications of the Five Year Plans and of the introduction of democracy to India are particularly relevant today Out of print for many years this classic biography has been reissued with an authoritative foreword by Ramachandra Guha **Nehru** David Crook, 1966 *Nehru: a contemporary's estimate, with a foreword by A. *Jawaharlal Nehru's Philosophy of History* Jatin Abhir, 2023-07-24 In the politics of twentieth century India Jawaharlal Nehru is a familiar name During the nine years he spent in prison he wrote at length about Indian and world history His ideas on history are not without distinction he was the only major political leader of Asia or Africa to have written anything resembling a world history for instance The patterns and possibilities he saw in history were informed by what can be termed as his philosophy of history He believed that how we write histories is directly related to the present we find ourselves in and the future we want to imagine As such a finer understanding of our past would not be possible without a more nuanced evaluation of our present and a more careful imagination of our future The aim of this book is to understand Nehru in a new light as a philosopher of history by assembling his scattered reflections on the meaning of history and establishing a relationship between them How did he argue for his specific historical philosophical claims and why Narcissus or Machiavelli? Nishant Uppal, 2021-07-22 This book is about leadership and its strategies Drawing on Indian prime ministers since Independence it traces personality traits and leadership skills that have shaped many futures It examines a range of leadership profiles to study dominant traits in one of the most demanding leadership roles in the world The volume focuses on Machiavellianism and narcissism as a framework to policy personality connections and demagogic tendencies in leaders in politics and in everyday life Accessible engaging and provocative this book will be essential reading for professionals across industries and corporations The general reader interested in leadership studies and Indian politics will also find this book useful Designing Social Service Markets Gabrielle Meagher, Adam Stebbing, Diana Perche, 2022-09-15 Governments of both right and left have been introducing market logics and instruments into Australian social services in recent decades Their stated goals include reducing costs increasing service diversity and in some sectors empowering consumers This collection presents a set of original case studies of marketisation in social services as diverse as family day care refugee settlement employment services in remote communities disability support residential aged care housing and retirement incomes Contributors examine how governments have designed these markets how they work and their outcomes with a

focus on how risks and benefits are distributed between governments providers and service users Their analyses show that inefficiency low quality services and inequitable access are typical problems Avoiding simplistic explanations that attribute these problems to either a few bad apple service providers or an amorphous neoliberalism that is the sum of all negative developments in recent years the collection demonstrates the diversity of market models and examines how specific market designs make social service provision susceptible to particular problems The evidence presented in this collection suggests that Australian governments market making policies have produced fragile and fragmented service systems in which the risks of rent seeking resource leakage and regulatory capture are high Yet the design of social service markets and their implementation are largely under political control Consequently if governments choose to work with market instruments they need to do so differently working with principles and practices that drive up both quality and equality **The**
