**The Archaeology of V. Gordon Childe** Vere Gordon Childe, 1994-07 Although V Gordon Childe died 36 years ago he remains the world's most renowned prehistorian His *What Happened in History* first published in 1942 is probably the most widely read book ever written by an archaeologist His influence and reputation endure despite the fact that many of the theoretical ideas he propounded as well as his interpretations of European and West Asian prehistory have been profoundly modified or even rejected since his death With contributions from such distinguished prehistorians as Kent V Flannery David Harris Leo S Klejn John Mulvaney Colin Renfrew Michael Rowlands and Bruce Trigger *The Archaeology of V Gordon Childe* is an attempt to evaluate Childe's achievement from different partly national perspectives and to assess how far and why his work remains significant today The contributors examine such persistent themes in Childe's thought as the nature of culture and the role of diffusion in cultural evolution and debate the question of whether Childe anticipated processual archaeology in his famous models of the Neolithic and Urban Revolutions Also included are evaluations of Childe's early career in Australia his relations with Soviet archaeology including a previously unknown letter from Childe to Soviet archaeologists and his impact on American archaeology

***The Neolithic Revolution*** Susan Meyer, 2016-07-15 The dawn of the Neolithic Era ushered in major changes in the way people lived In fact these changes were so sweeping that the transition from the Mesolithic Era to the Neolithic Era is referred to as the Neolithic Revolution The beginnings of agriculture and the domestication of animals both date from this period These changes to the food supply led people to settle in permanent communities which in turn led to organized societies and social hierarchy This book examines the factors that could have led to this revolution and the archaeological evidence of which changes happened where and when

**The Neolithic Revolution in the Near East** Alan H. Simmons, 2011-04-15 One of humanity's most important milestones was the transition from hunting and gathering to food production and permanent village life This Neolithic Revolution first occurred in the Near East changing the way humans interacted with their environment and each other setting the stage ultimately for the modern world Based on more than thirty years of fieldwork this timely volume examines the Neolithic Revolution in the Levantine Near East and the Mediterranean island of Cyprus Alan H Simmons explores recent research regarding the emergence of Neolithic populations using both environmental and theoretical contexts and incorporates specific case studies based on his own excavations In clear and graceful prose Simmons traces chronological and regional differences within this land of immense environmental contrasts woodland steppe and desert He argues that the Neolithic Revolution can be seen in a variety of economic demographic and social guises and that it lacked a single common stimulus Each chapter includes sections on history terminology geographic range specific domesticated species the composition of early villages and households and the development of social symbolic and religious behavior Most chapters include at least one case study and conclude with a

concise summary In addition Simmons presents a unique chapter on the island of Cyprus where intriguing new research challenges assumptions about the impact and extent of the Neolithic The Neolithic Revolution in the Near East conveys the diversity of our Neolithic ancestors providing a better understanding of the period and the new social order that arose because of it This insightful volume will be especially useful to Near Eastern scholars and to students of archaeology and the origins of agriculture

**The Agricultural Revolution in Prehistory** Graeme Barker,2006-10-05 The Agricultural Revolution in Prehistory addresses one of the most debated and least understood revolutions in the history of our species the change from hunting and gathering to farming Graeme Barker takes a global view and integrates a massive array of information from archaeology and many other disciplines including anthropology botany climatology genetics linguistics and zoology Against current orthodoxy Barker develops a strong case for the development of agricultural systems in many areas as transformations in the life ways of the indigenous forager societies and argues that these were as much changes in social norms and ideologies as in ways of obtaining food With a large number of helpful line drawings and photographs as well as a comprehensive bibliography this authoritative study will appeal to a wide general readership as well as to specialists in a variety of fields

**Social Anthropology and Human Origins** Alan Barnard,2011-03-17 The study of human origins is one of the most fascinating branches of anthropology Yet it has rarely been considered by social or cultural anthropologists who represent the largest subfield of the discipline In this powerful study Alan Barnard aims to bridge this gap Barnard argues that social anthropological theory has much to contribute to our understanding of human evolution including changes in technology subsistence and exchange family and kinship as well as to the study of language art ritual and belief This book places social anthropology in the context of a widely conceived constellation of anthropological sciences It incorporates recent findings in many fields including primate studies archaeology linguistics and human genetics In clear accessible style Barnard addresses the fundamental questions surrounding the evolution of human society and the prehistory of culture suggesting a new direction for social anthropology that will open up debate across the discipline as a whole

**The Neolithic Revolution** Sonia Mary Cole,British Museum (Natural History),1959 LIFE ,1956-04-16 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use Unified Growth Theory Oded Galor,2011-04-11 For most of the vast span of human history economic growth was all but nonexistent Then about two centuries ago some nations began to emerge from this epoch of economic stagnation experiencing sustained economic growth that led to significant increases in standards of living and profoundly altered the level and distribution of wealth population education and health across the globe The question ever since has been why This is the first book to put forward a unified theory of economic growth that accounts for the entire growth process from the dawn of civilization to today Oded Galor who founded the field of

unified growth theory identifies the historical and prehistorical forces behind the differential transition timing from stagnation to growth and the emergence of income disparity around the world Galor shows how the interaction between technological progress and population ultimately raised the importance of education in coping with the rapidly changing technological environment brought about significant reduction in fertility rates and enabled some economies to devote greater resources toward a steady increase in per capita income paving the way for sustained economic growth Presents a unified theory of economic growth from the dawn of civilization to today Explains the worldwide disparities in living standards and population we see today Provides a comprehensive overview of the three phases of the development process Analyzes the Malthusian theory and its empirical support Examines theories of demographic transition and their empirical significance Explores the interaction between economic development and human evolution      **Agricultural Devolution.**

**The Negative Social Consequences of the Neolithic Revolution** Natalie Perdue,2021-10-04 Seminar paper from the year 2020 in the subject World History Early and Ancient History language English abstract The relationship between agriculture and society is complex and it is often evaluated from an economic perspective This research aims to go beyond that limited perspective and examines the negative social consequences that have developed in human social behavior and in public health since the Neolithic Revolution It focuses primarily on the United States which utilizes some of the most advanced industrial agricultural practices seen throughout the world and which sets a lifestyle example that many other nations attempt to emulate Research has been conducted in multiple disciplines including social and physical evolutionary science sociological examinations of the effects of agriculture medical studies on current public health issues and economic texts largely focusing on the drastic inequality in the modern U S A      **Neolithic** Susan McCarter,2012-11-12 This excellent introductory textbook describes and explains the origins of modern culture the dawn of agriculture in the Neolithic area Written in an easy to read style this lively and engaging book familiarises the reader with essential archaeological and genetic terms and concepts explores the latest evidence from scientific analyses as varied as deep sea coring pollen identification radiometric dating and DNA research condensing them into an up to date academic account specifically written to be clear even the novice reader Focusing primarily on sites in southwest Asia Neolithic addresses questions such as Which plants and animals were the first to be domesticated and how How did life change when people began farming What were the first villages like What do we know about the social political and religious life of these newly founded societies What happened to human health as a result of the Neolithic Revolution Lavishly illustrated with almost a hundred images this enjoyable book is an ideal introduction both for students of archaeology and for general readers interested in our past

**The Neolithic Revolution** Sonia Cole,1967      **History of Art** Horst Woldemar Janson,Anthony F. Janson,2004 For forty years this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world boasting the matchless credibility of the Janson name This newest update features a more contemporary more colorful design and vast

array of extraordinarily produced illustrations that have become the Janson hallmark A narrative voice makes this book a truly enjoyable read and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship Extensive captions for the book s incredible art program offer profound insight through the eyes of twentieth century art historians speaking about specific pieces of art featured throughout Significantly changed in this edition is the chapter on The Late Renaissance in which Janson offers a new perspective on the subject tracing in detail the religious art tied to the Catholic Reform movement whose early history is little known to many readers of art history Janson has also rearranged early Renaissance art according to genres instead of time sequence and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians With a truly humanist approach this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30 000 years

**Transition and its Consequences** Jean-Pierre Bocquet-Appel, Ofer Bar-Yosef, 2008-09-30 The transition from hunting and gathering to farming the Neolithic Revolution was one of the most significant cultural processes in human history that forever changed the face of humanity Natu an communities 15 100 12 000 Cal BP all dates in this chapter are calibrated before present planted the seeds of change and the Pre Pottery Neolithic PPN ca 12 000 ca 8 350 Cal BP people were the first to establish farming communities The revolution was not fully realized until quite late in the PPN and later in the Pottery Neolithic PN period We would like to ask some questions and comment on a few aspects emphasizing the linkage between biological and cultural developments during the Neolithic Revolution The biological issues addressed in this chapter are as follows Is there a demographic change from the Natu an to the Neolithic Is there a change in the overall health of the Neolithic populations compared to the Natu an Is there a change in the diet and how is it expressed Is there a change in the physical burden stress people had to bear with Is there a change in intra and inter community rates of violent encounters From the cultural perspective the leading questions will be What was the change in the economy and when was it fully realized Is there a change in settlement patterns and site nature and organization from Natu an to Neolithic Is there a change in human activities and division of labor **The Great Unbundling** J. Y. Sterling, 2025-07-04 For hundreds of

thousands of years the story of human success was the story of a unique and powerful package In what this groundbreaking book calls the era of the Bundled Ape our ancestors dominated the planet by combining analytical intelligence emotional connection and physical dexterity within a single vessel the individual human Our societies economies and even our myths were built on the assumption that the person with the idea is also the one who feels the passion directs the hands and experiences the consequences Now that bundle is coming apart In The Great Unbundling the author presents a stunning new thesis for understanding our turbulent times The true disruption of artificial intelligence is not that it's a new tool but that it is the engine of a historical process that is systematically isolating each of our core functions improving them beyond human capacity and rendering the original human package obsolete This unbundling is being driven at a breakneck pace by the relentless profit seeking engine of modern capitalism which sees in AI the ultimate instrument for maximizing efficiency The evidence is everywhere The Unbundling of Labor Generative AI is poised to automate or degrade the work of 300 million full time employees striking at the heart of the knowledge economy from law and finance to journalism and medicine The Unbundling of Intelligence For the first time raw problem solving capability is being divorced from conscious understanding

An AI can pass the medical licensing exams without knowing what it means to heal or ace the bar exam without a concept of justice forcing us to ask what expertise truly means

**The Unbundling of Connection** In an age of profound loneliness AI is stepping in to meet our most fundamental needs With AI companions parasocial relationships and algorithmically curated communities emotional fulfillment is being unbundled from the messy unpredictable and deeply rewarding work of human to human connection What happens to a species whose core evolutionary advantage has been deconstructed and outsourced What is the economic value of a human being in a world where our bundled skills are no longer competitive This leads to the crisis of humanism itself and forces us to consider radical solutions like Universal Basic Income not as a political choice but as a potential civilizational necessity in the face of a useless class But this is not another prophecy of doom The unbundling is not an endpoint but a turning point

**The Great Unbundling** is the first book to chart the powerful counter current that is rising in response **The Great Re bundling** This is the story of the conscious human effort to forge a new purpose From the new artisans who are building thriving businesses on the very integrated authentic human skills that AI cannot replicate to the political movements and policymakers fighting to subordinate this new technology to human values a new path is being forged

**The Great Unbundling** is a profound deeply researched and ultimately hopeful guide to the most important transition of our lifetime It provides the essential framework for understanding the forces reshaping our world and offers a stirring vision for how we can actively create our future This provocative and insightful work argues that we are at a civilizational crossroads We can either passively accept our unbundling or begin the conscious creative and difficult work of forging a new human purpose

Essential reading for aficionados of Yuval Noah Harari Nick Bostrom and Kai Fu Lee

**The Great Unbundling** is sure to spark debate and will forever change how you think about the future of humanity

**The Archaeology of Africa**

Thurstan Shaw,1993 Africa has a vibrant past It emerges from this book as the proud possessor of a vast and highly complicated interweaving of peoples and cultures practising an enormous diversity of economic and social strategies in an Extraordinary range of environmental situations At long last the archaeology of Africa has revealed enough of Africa s unwritten past to confound preconceptions about this continent and to upset the picture inferred from historic written records Without an understanding of its past complexities it is impossible to grasp Africa s present let alone its future

**Neolithic Revolution** E. J. Peltenburg,Alexander Wasse,2004 The move towards a sedentary way of life had a profound effect on the human way of life the development of complex societies can be directly attributed to the beginnings of farming in place of a nomadic hunter gatherer lifestyle When Gordon Childe coined the term Neolithic revolution he meant it to reflect these vast changes that had occurred in the near east This book extends the reach of these changes to include Cyprus presenting new evidence that shows that the island played host to settled farming communities at the same time as the mainland pushing its habitation back by 2000 years
