## Neptune Strategy:

**The Neptune Strategy** John J. Gobbell, 2005-11-29 Former naval officer John J Gobbell brings to life marine warfare as few others ever have. Now the author of When Duty Whispers Low A Code For Tomorrow and The Last Lieutenant returns to the fiery panorama of World War II as Commander Todd Ingram is caught in a living hell BETWEEN THE HAMMER AND THE ANVIL. In 1944 the Allies have delivered a stunning blow to Hitler's Western front. In the Pacific Admiral Raymond A Spruance's Fifth fleet is poised to eviscerate the Japanese Navy and begin a new war for the occupied islands. But in the center of this world spanning drama a lone Japanese submarine is on a mission of a very different kind. And on board is Todd Ingram a prisoner of war and captive of fate. IS THE ULTIMATE ACT OF DECEPTION? Navy brass knows Ingram is on the sub but can't reveal its ability to break Japanese code. So Ingram's friend Captain Jerry Landa is put in charge of a covert Neptune Strategy to save Ingram. But Landa can't help himself as he falls for Ingram's wife Helen while the top brass demands to know where the Japanese sub is going who is in command and what its astounding ultimate mission really is. The Neptune Strategy is a fast paced World War II story that is not only a page turner but managed to teach me a few things too. I don't know of any novels set aboard a Japanese submarine but this is one and it's an adventurous blend of fact and fiction that hooked me from the moment Commander Todd Ingram Gobbell's realistic hero is knocked overboard into the path of a marauding I boat. Homer Hickham author of The Ambassador's Son and October Sky A solid addition to Gobbell's developing war chronicle as much historical fiction as military adventure. Publishers Weekly

**The Neptune Strategy** John Gobbell, 2004-06 In 1944 the Allies have delivered a stunning blow to Hitler's Western Front. At the same time Admiral Raymond A Spruance's Fifth Fleet is poised to deliver a knock out punch to the Japanese Navy in the Marianas and continue the Navy's island hopping campaign all the way to Japan. But in the center of this world spanning drama a lone Japanese submarine the I 57 headed for the U boat pens in L Orient France is on a mission of a very different kind. And on board is Todd Ingram a prisoner of war. Ingram was given up for lost at sea but via top secret code breaking the Navy brass discovers he is on the I 57. But they can't reveal how this was learned or that they even know it. So Ingram's close friend Captain Jerry Landa is put in charge of a covert NEPTUNE STRATEGY to save Ingram. But Landa can't help himself as he falls for Ingram's supposedly widowed wife Helen while the top brass demands to know where the Japanese sub is going who is in command and what the I 57's ultimate mission really is. It's only until the I 57 makes a secret rendezvous with her sister ship the I 49 in Madagascar's Antongila Bay that Ingram learns this is not just a simple technical exchange mission between Germany and Japan. The I 57's mission has far more personal and deadlier ramifications. Worst of all Ingram discovers the sub's captain Commander Hajime Shimada plans to kill him before they reach L Orient
