Moods Of London:

The Moods of London Robert James Cruikshank, 1951 **Vagabond Journeys; the Human Comedy at Home and Abroad** Percival Pollard, 1911 **Mood** Birgit Breidenbach, Thomas Docherty, 2019-04-10 Mood is a phenomenon whose study is inherently interdisciplinary While it has remained resistant to theorisation it nonetheless has a substantial influence on art politics and society Since its practical omnipresence in every day life renders it one of the most significant aspects of affect studies it has garnered an increasing amount of critical attention in a number of disciplines across the humanities sciences and social sciences in the past two decades *Mood Interdisciplinary Perspectives New Theories* provides a comprehensive theoretical and empirical exploration of the phenomenon of mood from an interdisciplinary angle Building on cutting edge research in this emerging field and bringing together established and new voices it bridges the existing disciplinary gap in the study of mood and further consolidates this phenomenon as a crucial concept in disciplinary and interdisciplinary study By combining perspectives and concepts from the literary studies philosophy musicology the social sciences artistic practice and psychology the volume does the complexity and richness of mood related phenomena justice and benefits from the latent connections and synergies in different disciplinary approaches to the study of mood **John O'London's Weekly**, 1919 **Dictionary of Anonymous and Pseudonymous English Literature: M-P** Samuel Halkett, John Laing, 1928 **Romance of a Missionary** Nephi Anderson, 1919 **Women Writers and the Artifacts of Celebrity in the Long Nineteenth Century** Maura Ives, Ann R. Hawkins, 2016-12-05 In 1788 the Catalogue of Five Hundred Celebrated Authors of Great Britain Now Living forecast a form of authorship that rested on biographical revelation and media saturation as well as literary achievement This collection traces the unique experiences of women writers within a celebrity culture that was intimately connected to the expansion of print technology and of visual and material culture in the nineteenth century The contributors examine a wide range of artifacts including prefaces portraits frontispieces birthday books calendars and gossip columns to consider the nature of women's celebrity and the forces that created it How did authors like Jane Austen the Countess of Blessington Louisa May Alcott Alice Meynell and Marie Corelli negotiate the increasing demands for public revelation of the private self How did gender shape the posthumous participation of women writers such as Jane Austen Ellen Wood Mary Elizabeth Braddon and Christina Rossetti in celebrity culture These and other important questions related to the treatment of women in celebrity genres and media and the strategies women writers used to control their public images are taken up in this suggestive exploration of how nineteenth and early twentieth century women writers achieved popular critical and commercial success *Affective Learning for Contemporary Education* Tom Feldges, 2024-11-15 This book dissects the relationship between the disciplines of Psychology and Education Studies to provide a new and critical perspective on the usefulness of psychological research and theory for educational purposes Assuming that affective states form an important part of how humans relate to their environment this book posits that the

currently dominant cognitive approach to the field of psychology is unable to account sufficiently for this experiential reality of human life Providing a philosophical investigation of this disparity chapters offer an in depth discussion of affective states for transformative learning chart the journey of Psychology as an independent academic discipline and engage classical learning theories in order to offer a broader understanding of complex field specific arguments and engage readers from multidisciplinary backgrounds Provoking a true paradigm shift in the field of Education Studies based on its own theoretical underpinnings this book ultimately initiates a partnership between both disciplines to demonstrate a progressive and radical approach to the way we teach and think about the field of education studies This cutting edge book will be of relevance to scholars researchers and postgraduate students in the fields of Education Studies educational psychology the theory of education and the philosophy of education more broadly Senior professionals and academics who wish to expand their knowledge in relation to the international literature of this field would further benefit from this volume more broadly
