cab and accepts a drink from the driver trusting that everything is fine She wakes up chained in the stranger s basement With no close family or friends expecting her to check in Eli knows she needs to save herself She soon realizes that her abduction wasn t random and though she thinks she might recognize her captor she can t figure out what he wants Her only clues are that he s very familiar with her books and deeply invested in the fantastical world she creates What follows is a test of wills as Eli pits herself against a man who believes she owes him everything and is determined to take it from her Terrifying and timely set against the backdrop of convention culture and the MeToo reckoning Number One Fan unflinchingly examines the tension between creator and work fandom and source material and the rage of fans who feel they own fiction

**Paths to the Stars** Edward Willett, 2020-06-30 Shortlisted for two 2019 Saskatchewan Book Awards From Edward Willett Aurora Award winning author of Marseguro The Cityborn and Worldshaper DAW Books among many others comes twenty two tales of fantasy science fiction and horror drawn from a long career of telling fantastic tales A young musician dreams of playing his songs among the stars A Broadway performer on the lam is forced to direct aliens in The Sound of Music Strange vegetables with dangerous properties crop up in small town Saskatchewan A man with a dark secret gets his comeuppance on a windy night on the prairie An elderly caretaker on the Moon preserves the memory of the millions who died on Earth s darkest day A woman and a bat like alien must overcome their own prejudices to prevent an interstellar war From the far future and the farthest reaches of space to the Canadian prairie from our world to worlds that have never existed to world s that might some day rich realms of imagination and the fascinating characters and creatures that populate them await within these stories some previously published some seeing print for the first time Time to go exploring Praise for Paths to the Stars I ve enjoyed every novel of Willett s that I ve consumed and hoped that his latest work would reach the same high bar It didn t it hurdled right over that bar and left it hanging Willett s powerful writing style shines in this story collection This book hits all the checkmarks for what I feel are the hallmarks of a science fiction work imaginative fantastical and mind bending If this work was a meal instead of a book it would deserve a Michelin star Toby A Welch SaskBooks Reviews This fascinating collection of science fiction short stories spans the writing career of this very prolific writer The author has a powerful imagination and transports readers to places and situations never before imagined from music and theatre on far away planets to unusual crops causing convorn in the prairies to times far in the future with all kinds of fascinating creatures The realm of possibility is endless in this author s vivid imagination Saskatchewan Book Awards City of Regina Book Award jurors Bruce Hunter Betty Jane Hegerat and Emily Jane Hills Orford Paths to the Stars is a well written collection of science fiction They are rich with imagination and stimulate the reader s interest in space and other worlds beyond our own small planet Saskatchewan Book Award Muslims for Peace and Justice Fiction Award jurors Rona Altrows Dora Dueck and Zoe S Roy I was happily surprised by Paths to the Stars I don t normally read short stories and was very wary of trying this book However I m glad I gave it a chance I loved how pretty much every story in Paths to the Stars was

intriguing quick and rarely boring I loved how the plot moved so elegantly fast and how the characters were so different from those in a regular story The author's writing is absolutely beautiful The words just flowed off the page It was an absolute delight to read Overall Paths to the Stars is an elegant beautiful collection of short stories I recommend it for anyone ages 12 Jesus Freak student reviewer LitPick Many students get their start as serious readers of science fiction and fantasy SFF in junior high or early senior high Often they read the classics in the genre without ever realizing that SFF authors are alive and producing right here in Canada Paths to the Stars offers readers a sly and good humoured introduction to the work of Saskatchewan based award winning writer Edward Willett With their compression and light literary touches these stories may nudge readers into reading more short fiction in SFF and what a bounty is available today They may also be a sneaky way to encourage less avid readers to explore the structure and features of literary short stories in a more palatable and accessible form Paths to the Stars should have broad appeal and would make an excellent addition to a classroom library and a fine recommendation from a trusted reader I really enjoyed this book Leslie Vermeer Resource Links I enjoyed this collection and if I had to give a one word description I'd say reminiscent Reminiscent of what Well back when I was reading my first SF I enjoyed the novels like Heinlein Asimov and so on but my first love was a good short story collection each story being written by a different author almost all seminal stories of science fiction and fantasy and much that came after was a pale shadow I say that Ed Willett's little collection of 22 stories is not an imitation nor are these stories old fashioned well some are a bit old fashioned in style but that's homage I think to the stories Ed liked while he was learning to be a writer But they remind me not the least in variety of those great collections of long ago Steve Fahnestalk Amazing Stories From exploding fruits and vegetables to a shrine on the moon dedicated to the memory of a devastated Earth these stories will not disappoint If you're a fantasy and science fiction fan like I am you're sure to enjoy this rollercoaster of stories every bit as much as I did I can sum my thoughts up in two words READ THEM Lorne McMillan Author of Isaac's Blood These stories take completely fantastical concepts and pack them into a neatly accessible format which makes them enormously entertaining Willett's sense of humor in many of the stories is perfectly offset with his use of mystery and drama in others There is a short story in this collection for every reader I was never a sci fi fan before but I certainly am now Also musical theatre worshipping aliens A reviewer on Amazon.ca
