Moon Quakes 2005 An Original Story:

Moon-Quakes 2005 Jack Brownlee, 2001-09-26 Because man has lived on this earth for so many years he thinks he knows it all and have seen it all But there are times when something beyond his imagination occurs leaving him breathless and wondering what s next Moon Quakes 2005 is about one of those times A time all of us wish we never had to experience We ve heard about sun spots possible ice caps on distant planets even a man made face on Mars As exciting as these things are they are so far away we couldn t imagine them having any real affect on us Oh how wonderful our Master is to keep us so protected from the vast universe He s created Some of us choose to believe any intruder from the heavens would be burned up in our atmosphere prior to its harming The Creator s chosen few But did we ever stop to think about a possible intruder so close a body mass so powerful that it controls our oceans our moods and so many other elements of our lives Unfortunately whenever man begins to feel he s lord and master he s confronted with the truth However this time the truth is more that any generation has experienced since the Great Flood Your wildest imagination would pale in comparision to events brought on by Moon Quakes
