Cheap Modernism Lise Jaillant,2017-04-17 We often think of Mrs Dalloway or A Portrait of the Artist as a Young Man as difficult books originally published in small print runs for a handful of readers But from the mid 1920s these texts and others were available in cheap format across Europe Uniform series of reprints such as the Travellers Library the Phoenix Library Tauchnitz and Albatross sold modernism to a wide audience thus transforming a little read highbrow movement into a popular phenomenon The expansion of the readership for modernism was not only vertical from high to low but also spatial since publisher s series were distributed within and outside metropolitan centres in Britain continental Europe and elsewhere Many non English native speakers discovered texts by Joyce Woolf and others in the original language a fact that has rarely been mentioned in histories of modernism Drawing on extensive work in neglected archives Cheap Modernism will be of interest to all those who want to know how the new literature became a global commercial hit The Moonstone

Wilkie Collins,1959 Called the first and greatest of English detective novels by T S Eliot The Moonstone is a masterpiece of suspense A fabulous yellow diamond becomes the dangerous inheritance of Rachel Verinder Outside her Yorkshire country house watch the Hindu priests who have waited for many years to reclaim their ancient talisman looted from the holy city of Somnauth When the Moonstone disappears the case looks simple but in mid Victorian England no one is what they seem and nothing can be taken for granted Witnesses suspects and detectives each narrate the story in turn The bemused butler the

love stricken housemaid the enigmatic detective Sergeant Cuff the drug addicted scientist each speculate on the mystery as Collins weaves their narratives together The Moonstone transcends the genre of detective novel or murder mystery The Book World Nicola Louise Wilson,2016-05-18 British literature underwent profound changes in the period 1900 1940 What role did audiences and channels of book distribution play in this In this wide ranging collection the influence of publishers

distributors librarians and readers come to the foreground to open up new perspectives on literature and print culture Rooted in original archival research chapters include studies of the engagement of canonical writers and bestsellers with the literary marketplace the influence of international and mobile audiences publishing practices involving genre promotion and censorship and the significance of spaces of reading including bookshops circulating libraries and on board passenger ships Through a series of detailed case studies that focus on under explored aspects of distribution and readership the contributors open up new perspectives on literature and the British book trade Catalogue of the Printed Books in the Library of the British Museum British Library,1901 The Moonstone. Readers have long been enthralled by the novels of Wilkie Collins whose The Moonstone is considered the first modern detective novel This book by Tamar Heller places Collins within Victorian literary history showing how his fiction transforms the conventions of the traditionally female genre of the Gothic novel and can be read as a critique of the gender and class distinctions that structured Victorian society
