Mora Montravers:

Mora Montravers (1909) Henry James, 2016-04-03 This early work by Henry James was originally published in 1909 and we are now republishing it with a brand new introductory biography Henry James was born in New York City in 1843 One of thirteen children James had an unorthodox early education switching between schools private tutors and private reading James published his first story A Tragedy of Error in the Continental Monthly in 1864 when he was twenty years old In 1876 he emigrated to London where he remained for the vast majority of the rest of his life becoming a British citizen in 1915 From this point on he was a hugely prolific author eventually producing twenty novels and more than a hundred short stories and novellas as well as literary criticism plays and travelogues Amongst James's most famous works are The Europeans 1878 Daisy Miller 1878 Washington Square 1880 The Bostonians 1886 and one of the most famous ghost stories of all time The Turn of the Screw 1898 We are republishing these classic works in affordable high quality modern editions using the original text and artwork **Mora Montravers** Henry James, 1909 **Portraying the Lady Donatella**

Izzo, 2001-01-01 From Daisy Miller to Isabel Archer to Maisie female characters dominate the work of Henry James and often critical discussion of James's work Donatella Izzo shifts that discussion to a different more revealing plane in this original interpretation of James's short fiction By redirecting criticism from a biographical emphasis to a focus on James's engagement with the issues of representation Izzo shows how these short stories actually question and investigate the cultural and ideological practices that produced women both in literature and in society Portraying the Lady brings to light the experimental quality and inherent consistency of stories that have received little critical attention all of which revolve around ideas at the core of the cultural representation of femininity at the time Izzo shows how James by testing and stretching these ideas in his imagery and plots exposed and exploded the perverse logic and the ultimate implications of such culturally shared versions of femininity thus revealing their oppressive quality for women and laying bare literature's complicity in reproducing and circulating them Exposing James's texts as sensitive registers of women's roles during the Victorian Edwardian era this book demonstrates that his texts make readers aware of how those stereotypes operated Blending literary art and feminist criticism with narratological analysis and postmodern theory this groundbreaking work restores a formal awareness to James studies within the wider theoretical concerns of feminist gender and cultural critiques
