**Herodotean Soundings** Andreas Schwab, Alexander Schütze, 2023-06-19 This volume is dedicated to the logos of Cambyses at the beginning of Book 3 in Herodotus Histories one of the few sources on the Persian conquest of Egypt that has not yet been exhaustively explored in its complexity The contributions of this volume deal with the motivations and narrative strategies behind Herodotus characterization of the Persian king but also with the geopolitical background of Cambyses conquest of Egypt as well as the reception of the Cambyses logos by later ancient authors Herodotean Soundings The Cambyses Logos exemplifies how a multidisciplinary approach can contribute significantly to a better understanding of a complex work such as Herodotus Histories

**Moral Soundings** Dwight Furrow, 2004-04-02 Moral Soundings takes a fresh new approach to introducing students and general readers to contemporary ethics Rather than surveying the standard fare in a typical anthology format Furrow collects diversified essays around a structured theme does Western culture face a moral crisis of values Prominent voices in the humanities and social sciences provide a range of perspectives on a concentrated set of ethical questions dealing with such topics as family values the morality of capitalism the benefits and dangers of new technologies global conflict and the role of religion Unlike point counterpoint books that often oversimplify the complexity of ethical questions the readings in Moral Soundings provoke critical engagement and help students to recognize and emulate the logical development of arguments all in engaging and easily accessible language Readings are supplemented with helpful chapter introductions study questions and strategically placed editorial commentary to encourage further discussion and reflection These features make Moral Soundings an ideal primary or supplementary text for undergraduate courses in ethics contemporary moral issues and social and political philosophy

**The Moral Authority of Government** R. Hoxie, 2023-05-31 These new essays prepared to commemorate the centennial of the National Institute of Social Sciences have been carefully crafted to deal with an overriding concern of our time those elements in political rule that go beyond legal rights and responsibilities into the moral requirements of effective governance The principal theme of this book is presidential leadership The presidency personifies government authority including moral authority In the first part of this book most of the essays argue that the moral authority of leaders depends on high personal standards as well as policy outcomes The second segment on the rule of law and character raises considerations not limited to the presidency Character and the authority that derives from it are demonstrated most effectively not by what someone does in his or her personal life but in the moral values of the causes espoused and effectiveness in pursuing them In the realm of international affairs governmental leadership must wrestle with the moral and constitutional guidelines known as reasons of state Under what circumstances is it morally acceptable for a leader or government to practice deception upon the citizenry to overthrow other governments to bomb civilians Many contributors raise the issue of what permits a government to take actions that would be immoral or illegal in individuals or groups The final segment expands and deepens this theme by exploring the work and role

of non governmental agencies that influence both leaders and citizens in the public arena In short at a period that brings to a close a period in which the presidency has become more visible as well as more prominent this collective effort sheds new light on classic themes It will be an invaluable guide as we enter the new century The contributors include an illustrious galaxy of public officials and political scientists including Madeleine K Albright Judith A Best Betty Glad C Lowell Harriss Travis Beal Jacobs Ruth P Morgan Stanley A Renshon Donald L Robinson and William vanden Heuvel Moral Soundings Dwight Furrow,2004 The 21 readings serve as an adjunct to textbooks in courses on the moral health of the US Taken mostly from public interest journals and written by active participants in the public debate about values they are designed to demonstrate that the common denominator to many disagreements is a difference over the meaning and value of personal autonomy Annotation 2004 Book News Inc Portland OR booknews com *Creaturely Theology* Celia Deane-Drummond,David Clough,2009 Creaturely Theology is a ground breaking scholarly collection of essays that maps out the agenda for the future study of the theology of the non human and the post human A wide range of first rate contributors show that theological reflection on non human animals and related issues are an important though hitherto neglected part of the agenda of Christian theology and related disciplines *The Classless Profession* Paul H. Mattingly,1975 Professor Paul H Mattingly s *The Classless Profession* American Schoolmen of the Nineteenth Century is unquestionably a major contribution to the history of American education It rests on a thorough command of the scholarship of the field and on a shrewd and original analysis of a great body of primary materials many of which have not previously been carefully exploited Merle Curti University of Wisconsin Pulitzer Prize Winner Mattingly s study should be read by everyone interested in the development of the public schools and of the teaching profession and especially by those whose criticism of today s schools derives from a belief that things were much better in the 1870s than the 1970s Albert Shanker United Federation of Teachers Mattingly s book is superlative in its exploration of the distinctive cultural qualities of the teaching profession Joseph Kett Review of American History What remains solid and permanently useful is his intellectual history of early leaders the best such study to date David Tyack Journal of American History Mattingly is at his best describing the variegated experiences of early teachers as they sought to transform teaching from a haphazard seasonal occupation to a developing profession He explores the dynamics of career choice for teachers with subtlety and insight Julia C Wrigley American Education Research Journal *The Classless Profession* traces the history of the special pride teachers took in the depoliticized image of their work This image of a classless profession one which preferred no class ideology not advanced any social group over another necessitated costs which teachers then and since have often ignored In an effort to describe the process of constructing this profession its images behavioral routines and institutional structures this study also assesses the historical forces which actually have favored certain social groups and certain educational ideologies over others This eye opening work is unique in that it features interdisciplinary methodology which draws on sociological demographical and historical methodologies and

delineates career line analyses of several generations of schoolmen It should prove vital reading to all those involved in the profession as well as the process of education i e teachers sociologists social and educational historians school planners and educational policy makers unionists and administrators alike      *Sounding Conflict* Fiona Magowan, Pedro Rebelo, Stefanie Lehner, Julie M. Norman, Ariana Phillips-Hutton, 2023-01-26 Sound music and storytelling are important tools of resistance resilience and reconciliation in creative practice from protracted conflict to post conflict contexts When they are used in a socially engaged participatory capacity they can create counter narratives to conflict Based on original research in three continents this book advances an interdisciplinary comparative approach to exploring the role of sonic and creative practices in addressing the effects of conflict Each case study illustrates how participatory arts genres are variously employed by musicians arts facilitators theatre practitioners community activists and other stakeholders as a means of strategic creativity to transform trauma and promote empowerment This research further highlights the complex dynamics of delivering and managing creativity among those who have experienced violence as they seek opportunities to generate alternative arenas for engagement healing and transformation      **Sounding Roman** Sonia Tamar Seeman, 2019 How do marginalized communities speak back to power when they are excluded from political processes and socially denigrated In what ways do they use music to sound out their unique histories and empower themselves How can we hear their voices behind stereotyped and exaggerated portrayals promoted by mainstream communities record producers and government officials *Sounding Roman Music and Performing Identity in Western Turkey* explores these questions through a historically grounded and ethnographic study of Turkish Roman Gypsies from the Ottoman period up to the present Drawing on extensive ethnographic fieldwork 1995 to the present collected oral histories historical documents of popular culture recordings images song texts theatrical scripts legal and administrative documents this book takes a hard look at historical processes by which Roman are stereotyped as and denigrated as ingene a derogatory group name equivalent to the English term gypsy and explores creative musical ways by which Roman have forged new musical forms as a means to create and assert new social identities *Sounding Roman* presents detailed musical analysis of Turkish Roman musical genres and styles set within social historical and political contexts of musical performances By moving from Byzantine and Ottoman social contexts we witness the reciprocal construction of ethnic identity of both Roman and Turk through music in the 20th century From neighborhood weddings held in the streets informal music lessons to recording studios and concert stages the book traces the dynamic negotiation of social identity with new musical sounds Through a detailed ethnography of Turkish Roman Gypsy musical practices from the Ottoman period to the present this work investigates the power of music to configure new social identities and pathways for political action while testing the limits of cultural representation to effect meaningful social change      Reconnoitres in Reason and the Table-book Norman Alliston, 1906      **The Educator-journal** , 1900      **The Nation** , 1903      **Moral Earthquakes and Secret Faults** O.
