Moral Philosophy For Modern Life:

Moral Philosophy for Modern Life Anthony Falikowski, 2005 Adopting a learning centered orientation the book shifts attention away from simple coverage of theoretical content and places it on what students will know and be able to do as a result of their philosophical study The author masterfully uses accessible language to convey complex ideas while maintaining a high level of student interest and involvement

Moral Philosophy and the Modern World Donald Phillip Verene, 2013-08-27 This work raises for the contemporary reader the ancient and abiding question of the nature and meaning of human virtue In Part 1 it draws upon Plato Aristotle and Cicero and the works of Renaissance Christian humanists who were influenced by them such as Pico Vives and Erasmus The moral act guided by the cardinal virtues and the good is seen as the key to human happiness and the formation of character Character is the basis for the pursuit of self knowledge decorum and dignity which properly guide human affairs Part 2 takes up Hegel's principle of the labor of the negative as applied to three phenomena of modern life the presence of terrorism the personality of the psycho sociopath and the problems of the technologically dominated life of the modern person These are the most powerful impediments to the good life in the modern world and pose problems to which the ethical doctrines of utilitarianism and the categorical imperative provide an insufficient response To confront these phenomena we are led back to the classical conception of the role of prudence or practical wisdom as the foundation of ethical life

Ethics for Modern Life Raziel Abelson, Marie-Louise Friquegnon, 1995 Ethics for Modern Life an anthology of classic and contemporary readings offers students a well balanced and cohesive introduction to ethics

The Battle for Human Nature: Science, Morality and Modern Life Barry Schwartz, 1987-08-17 Provocative and richly textured Schwartz's analyses of the inadequacies of contemporary scientific views of human nature are compelling but the consequences are even more worthy of note Los Angeles Times Out of the investigations and speculations of contemporary science a challenging view of human behavior and society has emerged and gained strength It is a view that equates human nature utterly and unalterably with the pursuit of self interest Influenced by this view people increasingly appeal to natural imperatives instead of moral ones to explain and justify their actions and those of others

Moral Philosophy Hector Davidson, Moral philosophy or ethics is the branch of philosophy that examines concepts of right and wrong virtue and vice justice and injustice It seeks to understand the foundations of moral principles how they are applied in human life and whether moral truths are objective or subjective From ancient civilizations to modern societies moral philosophy has played a crucial role in shaping human thought behavior and institutions One of the fundamental questions in moral philosophy is whether morality is a product of reason emotion or social convention Some philosophers argue that moral principles stem from rational deliberation while others suggest that morality is deeply tied to human emotions such as compassion and guilt Social constructivists on the other hand emphasize that moral norms evolve through cultural traditions religious beliefs and historical contexts The study of moral philosophy is often divided into three

main branches Meta ethics explores the nature and meaning of moral language questioning whether moral statements express objective truths or subjective opinions Normative ethics examines different ethical theories that propose principles for moral conduct such as consequentialism deontology and virtue ethics Applied ethics focuses on practical moral issues including debates on human rights justice medical ethics and environmental concerns Philosophy of Ethics and Society Hector Davidson, This book consists of the following titles and topics Adam Smith Ayn Rand Baruch Spinoza Bertrand Russell Camus Critical Theory Cynicism Epicurus Feminist Philosophy Humanism Liberalism Mary Wollstonecraft Montesquieu Moral Philosophy Naturalism Niccolo Machiavelli Parmenides Peter Singer Political Philosophy Simone Weil Socrates Transcendentalism Utilitarianism Constructive Ethics, a Review of Modern Moral Philosophy in Its Three Stages of Interpretation, Criticism, and Reconstruction William Leonard Courtney,1886 **Outlines of Moral Philosophy** Abhoy Kumar Mazumdar,1915 Ethics, Morality, and Human Nature Hector Davidson, This is a bundle of the following books Aesthetics Analytic Philosophy Critical Theory Cynicism Determinism Humanism Idealism Liberalism Moral Philosophy Naturalism Nihilism Parmenides Phenomenology Structuralism Utilitarianism **The Modern World** ,1926 The Apostle Paul and the Modern World Francis Greenwood Peabody,1923 *book II.
