Beatrice Allard Brooks,1921 **Moral Practices Vol 6** D.Z. Phillips,H.O. Mounce,2017-07-28 This is Volume VI of nine in a collection of studies in Ethics and the Philosophy of Religion Originally published in 1970 this volume looks at moral practices and the question which has puzzled philosophers whether any value judgement can follow logically from the facts can follow in such a way that someone who assents to the facts is bound in logic to assent also to the value judgement based upon them Moral Practices Dewi Zephaniah Phillips,H. O. Mounce,1969 *Principles and Practice of Morality* Ezekiel Gilman Robinson,1888 This book has been made for a service which no one of its predecessors could be persuaded to render It embodies the lectures its author has given to his classes in Ethics and is what it purports to be distinctively a text book It touches existing controversies only so far as is necessary for the elucidation or defence of its own positions The aim has been to condense rather than to expand its discussions and to diminish rather than to multiply its pages Preface **Moral Values** Walter Goodnow Everett,1918 Principles and Practices of Teaching James Johonnot,1878 **Morality in Practice** James P. Sterba,2004 The most timely anthology available MORALITY IN PRACTICE covers a number of critical contemporary issues including war and terrorism cloning and the environment Providing broad coverage of topics and opinions Sterba draws from current journalism as well as philosophy to present opposing viewpoints on each issue Each chapter covers a different area of moral concern with readings that provide alternative views as well as practical applications Introductions to each section provide background for each issue as well as discussion of the ethical theory behind the readings *Principles and Practice of Morality* Ezekiel Gilman Robinson,1888 This book has been made for a service which no one of its predecessors could be persuaded to render It embodies the lectures its author has given to his classes in Ethics and is what it purports to be distinctively a text book It touches existing controversies only so far as is necessary for the elucidation or defence of its own positions The aim has been to condense rather than to expand its discussions and to diminish rather than to multiply its pages Preface *Moral Voices, Moral Selves* Susan J. Hekman,1995 In her landmark 1982 study In a Different Voice Carol Gilligan argues that there is not only one true moral voice but two one masculine one feminine Moral values and concerns associated with a feminine outlook are relational rather than autonomous they depend upon interaction with others Susan J Hekman argues that the approach to morality suggested by Gilligan s work marks a radically new departure in moral thinking In a far reaching examination and critique of Gilligan s theory Hekman seeks to deconstruct the major traditions of moral theory that have been dominant since the Enlightenment She challenges the centerpiece of that tradition the disembodied autonomous subject of modernist philosophy Hekman argues that the logic of Gilligan s approach entails multiple moral voices not just one or even two and that factors other than gender class race and culture are constitutive of moral voice Using the work of Wittgenstein and Foucault she outlines the parameters of a

discursive morality and its implications for feminism and moral theory *Contract Law and Social Morality* Peter M. Gerhart, 2021-02-18 When people in a relationship disagree about their obligations to each other they need to rely on a method of reasoning that allows the relationship to flourish while advancing each person's private projects This book presents a method of reasoning that reflects how people reason through disagreements and how courts create doctrine by reasoning about the obligations arising from the relationship Built on the ideal of the other regarding person Contract Law and Social Morality displays a method of reasoning that allows one person to integrate their personal interests with the interests of another determining how divergent interests can be balanced against each other Called values balancing reasoning this methodology makes transparent the values at stake in a disagreement and provides a neutral and objective way to identify and evaluate the trade offs that are required if the relationship is to be sustained or terminated justly

Sedgwick, 2008-11 This book a re issue of the 1999 edition demonstrates that the way of life we call Christian is lived in relationships to others Christian faith understood as practical piety calls for a life opened to the world at

large concerned for the stranger as well as for the neighbor Sedgwick further emphasizes that the Christian life is grounded in the experience and worship of God His work thus develops Christian ethics as sacramental ethics an ethic that has at its center a deepening encounter with God Written in a style accessible to non specialists this book provides teachers pastors counselors and general readers with an ideal introduction to Christian ethics It renews the topic of Christian ethics by showing readers that faithful moral living is achieved through the daily practices of grace and godliness The author first explores the foundations of Christian ethics as seen by both Catholics and Protestants and then develops a constructive view of morality as a way of life Taking into account the central themes of Christian ethics he shows that effective piety is built on spiritual disciplines that deepen our experience of God prayer worship self examination simplicity and acts of hospitality
