**Social Disciplining and Civilising Processes in China** Thomas Heberer, 2023-08-11 This book argues that a major part of the Chinese government's road map formulated in 2017 to modernise China comprehensively by 2049 is the process of social disciplining It contends that the Chinese state sees that modernisation and modernity encompass not only economic and political administrative change but are also related to the organisation of society in general and the disciplining of this society and its individuals to create people with modernised minds and behaviour and that moreover the Chinese state is aspiring to a modernity with Chinese characteristics The question of modernising by disciplining was extensively dealt with in the twentieth century by leading Western social scientists including Max Weber Norbert Elias and Michel Foucault who argued that disciplining extending from external coercion towards the internalisation of restraints is indispensable for achieving social order and thereby for civilisation but defined from a European perspective in relation to developments in Europe This book therefore not only discusses the Chinese experience of social disciplining but also by looking at a non Western society identifies universal tendencies of societal change and social disciplining and separates them from particular occurrences

**The Evolution of Greek Moral Education** Cecil Fairfield Lavell, 1911      [Handbook of the Sociology of Morality, Volume 2](#) Steven Hitlin, Shai M. Dromi, Aliza Luft, 2023-10-25 This handbook articulates how sociology can re engage its roots as the scientific study of human moral systems actions and interpretation This second volume builds on the successful original volume published in 2010 which contributed to the initiation of a new section of the American Sociological Association ASA

thus growing the field This volume takes sociology back to its roots over a century ago when morality was a central topic of work and governance It engages scholars from across subfields in sociology representing each section of the ASA who each contribute a chapter on how their subfield connects to research on morality This reference work appeals to broader readership than was envisaged for the first volume as the relationship between sociology as a discipline and its origins in questions of morality is further renewed The volume editors focus on three areas the current state of the sociology of morality across a range of sociological subfields taking a new look at some of the issues discussed in the first handbook which are now relevant in sometimes completely new contexts and reflecting on where the sociology of morality should go next This is a must read reference for students and scholars interested in topics of morality ethics altruism religion and spirituality from across the social science      Moral Injury After Abortion Tara C.
