**Principles and Practice of Morality** Ezekiel Gilman Robinson, 1888 This book has been made for a service which no one of its predecessors could be persuaded to render It embodies the lectures its author has given to his classes in Ethics and is what it purports to be distinctively a text book It touches existing controversies only so far as is necessary for the elucidation or defence of its own positions The aim has been to condense rather than to expand its discussions and to diminish rather than to multiply its pages Preface

**Ethics in Practice** Andrew Alexandra, Seumas Miller, 2009 Dozens of times a day in matters both grave and mundane we make moral choices Guided by our sense of what is right or wrong fair or unfair kind or cruel we usually have no doubt about what to do Sometimes however we find ourselves facing situations of moral complexity and uncertainty Wayne an orderly finds Mrs Smith slumped in her bathroom her vital signs non existent Should he administer the life saving drugs even though he is not qualified to do so and will risk losing his job Miss B a tetraplegic paralysed from the neck down remains indefinitely in an intensive care unit where she is dependent entirely upon a ventilator She asks to have the ventilator switched off Does she have the right to die As two police officers approach a block of flats to arrest a known drug dealer and pedophile a parcel of heroin flies out the window Subsequently the senior officer makes a statement claiming that the heroin was found in the suspect's fat Should the junior officer perjure himself when questioned in court and put this dangerous felon behind bars once and for all Focusing on a range of problematic issues likely to be confronted by human service professionals Ethics in Practice uses numerous absorbing case studies to show how moral theory can guide us in the face of morally hard choices Book jacket

**Principles and Practice of Morality** Ezekiel Gilman Robinson, 1889 **Right And Reason** Fr. Austin Fagothey, 2000-02-15 Ethics both in theory and practice Phrased in non technical language Right and Reason is a thoroughly competent book in the philosophy of Ethics which gives the science of morality from the Aristotelian Thomistic common sense school of thought

which is none other than the Perennial Philosophy of the Ages the philosophy outside of which one's positions quickly become absurd and all reasoning ends up in dead ends Impr *Ethics in Practice* Hugh LaFollette, 2014-01-02 The fourth edition of *Ethics in Practice* offers an impressive collection of 70 new revised and classic essays covering 13 key ethical issues Essays integrate ethical theory and the discussion of practical moral problems into a text that is ideal for introductory and applied ethics courses A fully updated and revised edition of this authoritative anthology of classic and contemporary essays covering a wide range of ethical and moral issues Integrates ethical theory with discussions of practical moral problems and includes three essays on theory written specifically for this volume Nearly half of the essays are written or revised exclusively for this anthology which now also features eleven essays new to this edition as well as expanded sections discussing theory reproductive technologies war and terrorism and animals Content allows teachers to discuss discrete practical issues e.g. euthanasia focus on the broader grouping of topics e.g. life and death or focus on common themes which bridge sections sexism moral standing individualism and community Section introductions not only outline the basic issues discussed in the essays but relate them to theoretical perspectives and practical issues discussed elsewhere in the book Guides students with supporting introductory essays on reading philosophy theorizing about ethics writing a philosophy paper and a supporting web site at [www.hughlafollette.com/eip4](http://www.hughlafollette.com/eip4) Morality, Philosophy, and Practice Abraham Edel, Elizabeth Flower, Finbarr W. O'Connor, 1989 The Morality of the School Mike Bottery, 1990 Morality, Philosophy and Practice Abraham Edel, Elizabeth Flower, Finbarr W. O'Connor, 1988 Ethics: Theory and Practice Y. V. Satyanarayana, 2009 Ethics is a part of philosophy that is concerned with living well and choosing the right course of action The choice of the course of action is based on moral reasoning and there is no single moral theory on which we can base the choices that we make The application of moral standards in life is also the concern of Ethics Theory and Practice which deals with moral theories in Indian and Western philosophical traditions as well as the debates that centre around their application The book has ten chapters the first chapter presents what morality and moral reasoning is the second chapter is a critical survey of some popular concepts of Indian ethics the third chapter surveys Western moral theories and the remaining seven chapters cover a variety of contemporary moral issues that are controversial as well as inescapable They deal with issues like capital punishment civil disobedience euthanasia and women's rights Principles and Practice of Morality Ezekiel Gilman Robinson, 2019-03 Principles and Practice of Morality Ezekiel Gilman Robinson, 2019 *Fagothey's Right & Reason* Austin Fagothey, Milton A. Gonsalves, 1989 This book is designed for undergraduate courses in ethics *The Self, Relational Sociology, and Morality in Practice* Owen Abbott, 2019-10-21 Winner of the 2020 British Sociological Association Philip Abrams Prize Providing a theory of moral practice for a contemporary sociological audience Owen Abbott shows that morality is a relational practice achieved by people in their everyday lives He moves beyond old dualisms society versus the individual social structure versus agency body versus mind to offer a sociologically rigorous and coherent theory of the relational

constitution of the self and moral practice which is both shared and yet enacted from an individualized perspective In so doing *The Self Relational Sociology and Morality in Practice* not only offers an urgently needed account of moral practice and its integral role in the emergence of the self but also examines morality itself within and through social relations and practices Abbott's conclusions will be of interest to social scientists and philosophers of morality those working with pragmatic and interactionist approaches and those involved with relational sociology and social theory
