## **Morality Within The Limits Of Reason:**

**Morality Within the Limits of Reason** Russell Hardin, 1988 This provocative lucidly written reconstruction of utilitarianism focuses on the practical constraints involved in ethical choice information may be inadequate and understanding of causes and effects may be limited Good decision making may be especially constrained if other people are closely involved in determining an outcome Hardin demonstrates that many of these structural issues can and should be distinguished from the thornier problems of utilitarian value theory and he is able to show what kinds of moral conclusions we can reach within the limits of reason

The Ontological Foundation of Ethics, Politics, and Law Francesco

Belfiore, 2013-03-25 The revised edition of The Ontological Foundation of Ethics Politics and Law adds new concepts and discusses the views of additional thinkers The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect sensitivity and power each exerting a bidirectional selfish and moral activity Through this approach the notions of good morality society and law are derived from the structure and functioning of the mind It follows that the solutions presented are the results of a discovery and not the consequence of a choice Otherwise stated ethics politics and law are given an ontological foundation For each topic considered Belfiore shows how his thought can reinterpret the views of other philosophers This new edition enriched in concepts and quotations appears as an innovative and highly stimulating contribution to the philosophical branches of ethics politics and law and will be of interest to both graduate students and philosophy scholars

Reason and Value: Themes from the Moral Philosophy of Joseph Raz R. Jay Wallace, Philip Pettit, Samuel Scheffler, Michael Smith, 2004-03-04 Reason and Value collects 15 new papers by leading contemporary philosophers on themes from the work of Joseph Raz Raz has made major contributions in a wide range of areas including jurisprudence political philosophy and the theory of practical reason but all of his work displays a deep engagement with central themes in moral philosophy The subtlety and power of Raz's reflections on ethical topics make his writings a fertile source for anyone working in this area Especially significant are his explorations of the connections between practical reason and the theory of value which constitute a sustained and penetrating treatment of a set of issues at the very center of moral philosophy as it is practiced today The contributors to the volume acknowledge the importance of Raz's contributions by engaging critically with his positions and offering independent perspectives on the topics that he has addressed The volume aims both to honour Raz's accomplishments in the area of ethical theorizing and to contribute to an enhanced appreciation of the significance of his work for the subject

Reason and Morality Alan Gewirth, 1978 Most modern philosophers attempt to solve the problem of morality from within the epistemological assumptions that define the dominant cultural perspective of our age Alan Gewirth's Reason and Morality is a major work in this ongoing enterprise Gewirth develops with patience and skill what he calls a modified naturalism in which morality is derived by logic alone from the concept of action I think that the publication of Reason and Morality is a major event in the history of moral philosophy It

develops with great power a new and exciting position in ethical naturalism No one regardless of philosophical stance can read this work without an enlargement of mind It illuminates morality and agency for all E M Adams *The Review of Metaphysics* This is a fascinating study of an apparently intractable problem Gewirth has provided plenty of material for further discussion and his theory deserves serious consideration He is always aware of possible rejoinders and argues in a rigorous manner showing a firm grasp of the current state of moral and political philosophy **Mind**
