Moravian Architecture and Town Planning William J. Murtagh,1997-01-29 The industrial city of Bethlehem Pennsylvania was originally settled in colonial times by Moravians from southeastern Germany These religious utopians were noted for urban planning In this large format richly illustrated volume historian William Murtagh compares more than 20 Bethlehem landmarks with other Moravian communities for a fascinating glimpse into a part of America s past *Moravian*

**Piedmont North Carolina** Christopher E. Hendricks,2024-11-15 How do towns come into existence What circumstances determine whether they succeed or fail In *The Colonial Towns of Piedmont North Carolina* author Christopher E Hendricks looks at one region in eighteenth century America to explore answers to these questions He examines the establishment and development of eleven towns in the Piedmont classifying them into three types county towns formed by the establishment of government institutions such as a courthouse trade towns formed around commercial opportunities and religious towns such as the three towns developed in Wachovia a region where Moravians settled He uses these classifications to tell the stories of how these towns came into being and how in their development they struggled against economic cultural and political challenges Ultimately *The Colonial Towns of Piedmont North Carolina* deepens our understanding of the influence that American towns had on the settlement of the backcountry Hendricks tells the poignant story of the Moravians struggle to maintain their neutral stance during the Revolutionary War surviving exploitation and brutality from both the Continental Army and the British The author also integrates the history of Native Americans into this mix of competing forces and shows how they were challenged by and resisted the newcomers He emphasizes the role of individual initiative as well as the impetus of government specifically courthouses in establishing towns By utilizing a variety of rarely examined primary sources methodological approaches ranging from geographic theory to material culture studies and a deep examination of local history Hendricks provides a comprehensive analysis of the emergence of these towns on the frontier *The*

Backcountry Towns of Colonial Virginia Christopher E. Hendricks,2006 Hendricks writes on how towns in backcountry Virginia came about from the designs and ambitions of entrepreneurial individuals They did not just spring up randomly in some pleasing meadow or on some riverbank happened upon by a frontiersman for example or a group which had struck out into the wilderness The people who put these plans for towns into action were motivated by a variety of economic social or philanthropic factors and sometimes purely by circumstance and opportunity These entrepreneurial like individuals were not a part of any organized movement But their activities in toto played a large part in opening up the western parts of Virginia and setting a pattern for westward expansion Among the towns Hendricks studies in larger topological areas such as the Piedmont and the Great Valley Shenandoah are Winchester Marysville Leesburg Woodstock Charlottesville and Brent Town

Early maps of many of the towns especially demonstrate the ideas and purposes of their founders Along with the maps the authors specifics on the conception establishment and early period of the many towns makes each oe stand out distinctively The enterprises and goals of the town were as varied as the individuals who conceived them

**Moravian Soundscapes** Sarah

Justina Eyerly,2020-05-05 In Moravian Soundscapes Sarah Eyerly contends that the study of sound is integral to understanding the interactions between German Moravian missionaries and Native communities in early Pennsylvania In the mid 18th century when the frontier between settler and Native communities was a shifting spatial and cultural borderland sound mattered People listened carefully to each other and the world around them In Moravian communities cultures of hearing and listening encompassed and also superseded musical traditions such as song and hymnody Complex biophonic geophonic and anthropophonic acoustic environments or soundscapes characterized daily life in Moravian settlements such as Bethlehem Nain Gnadenh tten and Friedensh tten Through detailed analyses and historically informed recreations of Moravian communal environmental and religious soundscapes and their attendant hymn traditions Moravian Soundscapes explores how sounds musical and nonmusical human and nonhuman shaped the Moravians religious culture Combined with access to an interactive website that immerses the reader in mid 18th century Pennsylvania and framed with an autobiographical narrative Moravian Soundscapes recovers the roles of sound and music in Moravian communities and provides a road map for similar studies of other places and religious traditions in the future

**The Transformation of Moravian Bethlehem**

Beverly Prior Smaby,1988 The Moravians who settled Bethlehem Pennsylvania in 1742 were committed to a society centered around missionary work To free their missionaries from the need to earn a living they formed a communal economic organization in which all workers gave their labor to the community in exchange for food shelter and clothing To encourage each individual s religious development family ties were deemphasized and members of the same sex marital status and age slept worked and worshipped together After 20 years the worldwide Moravian Church facing a financial crisis ordered Bethlehem to reorganize into a traditional community of nuclear families It was hoped that under this more conventional arrangement Bethlehem could be expected to help pay the huge debts of the parent church In The Transformation of Moravian Bethlehem Beverly Prior Smaby traces the effects of this change on Bethlehem s Moravians demonstrating how it altered even the most intimate aspects of their lives She analyzes the unusually accurate marriage birth death migration and

census records to assess the demographic response to institutional change She traces change in cultural norms through unique technical analyses of biographies which were read at a variety of Moravian gatherings Within 100 years Smaby asserts Bethlehem grew from an egalitarian communal society of symbolic Brothers and Sisters into a privatized community of socially stratified families whose cultural ideal was no longer religious service but usefulness to family and society Scholars of American history and folk life will find this book a valuable addition to literature on community history social change and historical methods Church historians will benefit from its in depth study of secularization on a personal level and it will be of keen interest to members of the Moravian Church *Town and Country Planning* ,1968 *The Peoples of Pennsylvania* David E.
