## **Moravians In Two Worlds A Study Of Changing Communities:**

Moravians in Two Worlds Gillian Lindt Gollin,1967      **Pious Pursuits** Michele Gillespie,Robert Beachy,2007 Essays re members of the Moravian Church although many of these Protestant immigrants spoke German they originated in various countries      From Congregation Town to Industrial City Michael Shirley,1997-08 A fine addition to the study of urbanization Michael Shirley s book will appeal not only to a regional audience in the South but also to all students of the diverse American experience **AMERICAN HISTORICAL REVIEW** Compelling an important contribution to our understanding of the modernizing of America **JOURNAL OF INTERDISCIPLINARY HISTORY** 17 illustrations      **Moravian Soundscapes** Sarah Justina Eyerly,2020-05-05 In Moravian Soundscapes Sarah Eyerly contends that the study of sound is integral to understanding the interactions between German Moravian missionaries and Native communities in early Pennsylvania In the mid 18th century when the frontier between settler and Native communities was a shifting spatial and cultural borderland sound mattered People listened carefully to each other and the world around them In Moravian communities cultures of hearing and listening encompassed and also superseded musical traditions such as song and hymnody Complex biophonic geophonic and anthropophonic acoustic environments or soundscapes characterized daily life in Moravian settlements such as Bethlehem Nain Gnadenh tten and Friedensh tten Through detailed analyses and historically informed recreations of Moravian communal environmental and religious soundscapes and their attendant hymn traditions Moravian Soundscapes explores how sounds musical and nonmusical human and nonhuman shaped the Moravians religious culture Combined with access to an interactive website that immerses the reader in mid 18th century Pennsylvania and framed with an autobiographical narrative Moravian Soundscapes recovers the roles of sound and music in Moravian communities and provides a road map for similar studies of other places and religious traditions in the future      Artisans in the North Carolina Backcountry Johanna Miller Lewis,2021-12-14 During the quarter of a century before the thirteen colonies became a nation the northwest quadrant of North Carolina had just begun to attract permanent settlers This seemingly primitive area may not appear to be a likely source for attractive pottery and ornate silverware and furniture much less for an audience to appreciate these refinements Yet such crafts were not confined to urban centers and artisans like other colonists were striving to create better lives for themselves as well as to practice their trades As Johanna Miller Lewis shows in this pivotal study of colonial history and material culture the growing population of Rowan County required not only blacksmiths saddlers and tanners but also a great variety of skilled craftsmen to help raise the standard of living Rowan County s rapid expansion was in part the result of the planned settlements of the Moravian Church Because the Moravians maintained careful records historians have previously credited church artisans with greater skill and more economic awareness than non church craftsmen Through meticulous attention to court and private records deeds wills and other sources Lewis reveals the Moravian failure to keep up with the pace of development occurring elsewhere in the county Challenging the traditional

belief that southern backcountry life was primitive Lewis shows that many artisans held public office and wielded power in the public sphere She also examines women weavers and spinsters as an integral part of the population All artisans Moravian and non Moravian male and female helped the local market economy expand to include coastal and trans Atlantic trade Lewis's book contributes meaningfully to the debate over self sufficiency and capitalism in rural America

### **The Evacuation of**

**Shekomeko and the Early Moravian Missions to Native North Americans** Karl-Wilhelm Westmeier,1994 Based on extensive handwritten Moravian sources but also using ethno historical methods this study evaluates the approach of the missionaries and the Native Americans response in light of the reactions of the colonial whites who desired the destruction of the mission It explores the conflict between Church mission and State society in view of Americanization processes examining early American racism and its effects beyond the closing of Shekomeko to the Native American communities at large especially with regard to their growing resistance to the Christian message It seeks to contribute not only to missiology but also to the ethnohistory of America and anthropology and sociology especially in the narrower fields of peace and racial studies

**The Transformation of Moravian Bethlehem** Beverly Prior Smaby,1988 The Moravians who settled Bethlehem Pennsylvania in 1742 were committed to a society centered around missionary work To free their missionaries from the need to earn a living they formed a communal economic organization in which all workers gave their labor to the community in exchange for food shelter and clothing To encourage each individual's religious development family ties were deemphasized and members of the same sex marital status and age slept worked and worshipped together After 20 years the worldwide Moravian Church facing a financial crisis ordered Bethlehem to reorganize into a traditional community of nuclear families It was hoped that under this more conventional arrangement Bethlehem could be expected to help pay the huge debts of the parent church In **The Transformation of Moravian Bethlehem** Beverly Prior Smaby traces the effects of this change on Bethlehem's Moravians demonstrating how it altered even the most intimate aspects of their lives She analyzes the unusually accurate marriage birth death migration and census records to assess the demographic response to institutional change She traces change in cultural norms through unique technical analyses of biographies which were read at a variety of Moravian gatherings Within 100 years Smaby asserts Bethlehem grew from an egalitarian communal society of symbolic Brothers and Sisters into a privatized community of socially stratified families whose cultural ideal was no longer religious service but usefulness to family and society Scholars of American history and folk life will find this book a valuable addition to literature on community history social change and historical methods Church historians will benefit from its in depth study of secularization on a personal level and it will be of keen interest to members of the Moravian Church
