Morbid Symptoms:

Morbid Symptoms Donald Sassoon, 2021-03-02 A health check on our corrupt and broken political system by one of our finest historians The deadly coronavirus spread across societies already riddled with political ills rampant xenophobia and corruption privatisation run amok Brexiteer vainglory of a global Britain a Euroland dominated by self proclaimed nasty parties and in America the unspeakable Trump As the acclaimed historian Donald Sassoon observes in this blistering polemic there were morbid symptoms galore Sassoon paints an unforgettable picture of our galloping descent into political barbarism mixing blunt expos and classical references with an astonishing array of data Why does the United States proportionately have more civilians owning guns than Yemen where there is a war on Why did the UK enter the pandemic with fewer doctors than any EU country except Poland and Romania In *Morbid Symptoms* he refuses to abandon what Antonio Gramsci termed the optimism of the will instead recalling a line from Machiavelli's *Istorie fiorentine* do not impute past disorders to the nature of the men but to the times which being changed give reasonable ground to hope that with better government our city will have better fortune in the future

The United States' Residual Hegemony Rashad Seedeem, 2023-06-16 This book investigates the hegemony of the USA by examining the Obama Trump and Biden administrations responses to major global crises Combining a Gramscian framework with the main features of complexity theory it provides a comprehensive account of the systemic crisis of the hegemonic order of the United States in security environmental and economic issue areas By examining key case studies the author reveals that the hegemonic responses of the US were confronted by overt challenges including emerging state and non state actors globally complex transnational flows and a combative domestic political climate which undermined the United States role in multilateral institutions no longer fit for purpose This book will be of interest to general readers as well as scholars and students of US foreign policy global politics and Gramscian theory
