The New Mormon History is the banner under which many professional historians today approach Latter day Saint
historiography Scholars who embrace this term attempt to put significant events into context rather than bracketing data
that might seem challenging to traditional assumptions These scholars are also as interested in the experience of the rank
and file as in the lives and edicts of the leaders and pursue questions about women minorities domestic life diet fashion and
the common church experience They employ statistical analysis and theories and methods of the social sciences in their work
In this collection D Michael Quinn has selected fifteen essays which demonstrate the methods of this new history
