Monumenta Historica Britannica Henry Petrie, John Sharpe, Sir Thomas Duffus Hardy, 1969 **The Antiquary** Kelsey Jackson Williams, 2016-07-28 John Aubrey 1626-1697 antiquary natural philosopher and virtuoso is best remembered today for his Brief Lives biographies of his contemporaries filled with luminous detail which have been mined for anecdotes by generations of scholars However Aubrey was much more than merely the hand behind an invaluable source of biographical material he was also the author of thousands of pages of manuscript notebooks covering everything from the origins of Stonehenge to the evolution of folklore Kelsey Jackson Williams explores these manuscripts in full for the first time and in doing so illuminates the intricacies of Aubrey's investigations into Britain's past The Antiquary is both a major new study of an important early modern writer and a significant intervention in the developing historiography of antiquarianism It discusses the key aspects of Aubrey's work in a series of linked chapters on archaeology architecture biography folklore and philology concluding with a revisionist interpretation of Aubrey's antiquarian writings While covering a wide variety of scholarly territory it remains rooted in the common thread of Aubrey's own intellectual development and the continual interaction between his texts as he studied discovered revised and rewrote them across four decades Its conclusions not only substantially reshape our understanding of Aubrey and his works but also provide new understandings of the methodologies ambitions and achievements of antiquarianism across early modern Europe *The Celts* Ian Stewart, 2025-03-04 A history of Celtic thought and identity over the last three centuries This book will be the first synoptic historical study of Celtic ideas in the modern era The Celts are perennially popular in both academic and popular culture having been the subject of several recent books scholarly and otherwise as well as a major exhibition The Celts Art and Identity at the British Museum and National Museum of Scotland in 2015-16 However attention remains overwhelmingly focused on the ancient peoples labelled Celts with little interrogation of how and why they became known as such during the modern period In addressing these questions this study will be the first to account for the trajectory of ideas of the Celts or Celticism and how they became fundamental pillars of national identities in western Europe especially in Britain Ireland and France A transnational approach

covering the period from roughly 1700 to the present day will allow the proposed volume to chart the transformation of perceptions of the Celts from those of a sought after European ancestor to those of a marginalised people living on the fringes of western Europe In doing so it will illustrate the wider intellectual cultural and political ramifications of this protracted ideological shift in different national contexts As nationalism resurfaces across Europe this timely study will reveal the intellectual history of a prominent cultural identity and show the historical contingency of Celtic based nations national identities and nationalisms **The Constitutional History and Constitution of the Church of England** Felix Makower,1895 No detailed description available for The Constitutional History and Constitution of the Church of England
