Carrott, 2023-12-22 *The Egyptian Revival Its Sources Monuments and Meaning 1808 1858* offers an in depth study of an architectural phenomenon that recast ancient Egyptian forms in the early 19th century Western world examining the aesthetic and symbolic layers of this revival Rooted in Egypt's long standing legacy as the first civilization and a land of mystique immortality and grandeur Egyptian motifs like obelisks sphinxes and pyramids captivated European and American imaginations alike This work traces the trajectory of the Egyptian Revival contrasting early European romanticism with America's later more archeologically faithful adaptations revealing how Western architecture selectively reinterpreted Egypt's sacred forms to convey modern values unity and aesthetic eclecticism The revival movement as the author explores transcends simple imitation it adapts Egyptian architectural motifs to fulfill contemporary needs balancing historical authenticity with inventive reinterpretation With rigorous analysis of structures

from Benjamin Latrobe's Library of Congress design to New York's iconic Tombs and Dubuque City Jail the text illustrates how American builders both honored and evolved Egyptian forms to embody democratic ideals social order and innovation This comprehensive study sheds light on how revival movements especially the Egyptian reflect both historical connections and the unique concerns of their times illuminating the persistent allure of Egypt's ancient architecture in shaping modern American identity This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978     [Ancient History From the Monuments](#) S.
