Moose Valerius Geist,1999 Describes the personality traits diets breeding behavior and social structure of moose and covers such issues as conservation efforts and their interaction with humans      **Of Moose and Men** Jerry Haigh, Jerry C. Haigh, 2012-05-13 Wildlife veterinarian Jerry Haigh discusses his experiences with moose      **Ecopoetics and the Global Landscape** Isabel Sobral Campos, 2018-12-27 Ecopoetics and the Global Landscape Critical Essays surveys ecopoetry from a global perspective across different historical epochs Its comparative approach foregrounds the importance of ecopoetics within the context of distinct national literatures and cultures to reveal the ubiquitous intersection of poetry with ecocriticism The collection analyzes environmental problems resulting from the legacies of colonialism and focuses on issues of environmental justice and indigenous issues as well as on the intersection of genocide studies and environmentalism It also examines ecologically informed modes of relating to the world In particular it engages with interactions between the human and nonhuman as well as mind and matter Finally it broadens the scope of place to include both the absent land of exiled peoples and the urban built environment      *Deer Companions* Thomas Lee Boles, 2008-09-23 Deer Companions includes several years of observations and experiences at a deer farm The reader will be introduced to a herd of several dozen white tailed deer become closely acquainted with several and their human caretakers and even see a little of what used to be called natural history The nearest likeness to the author s experience is the proverbial traveler to a distant land who becomes adopted into an exotic tribe We will see the herd s social structure as it were from the inside and acquire a jealous but very devoted sweetheart That s her on the cover The author has seen this happen to several other people but after extensive research can find no published mention of it The picture doesn t do it justice no one else can see the look in Sugar s eyes when she does that There is also an extensive appendix describing habitat and herd manipulations in all fifty states of the Union to enhance sporting opportunities multiply deer populations for hunters benefit This puts away any claim that hunting is about population control      **Minnesota Conservation Volunteer** ,2000      *Nature of the Place* Edward Kanze, 2025-04-15 A love letter to the Adirondacks revealing the hidden wonders and interconnected lives of its wildlife by one of the region s most prolific and prominent residents The Nature of the Place is storied Adirondack nature writer Edward Kanze s invitation to slow down smell the roses and get to know fellow creatures with more longstanding claims to this landscape than we have Theirs is the real internet a web of life that weaves together an almost infinite number of threads into a fabric that s a wonder to behold and something close to a miracle in a largely hostile universe In these dazzling pages readers meet the big charismatic animals of the Adirondacks the black bear and the moose We encounter little creatures too all of which lead fascinating lives while nearly unseen tiny fish that live in exquisite mountain streams the infuriating and almost invisible biting insects called no see ums centipedes millipedes and earthworms Discover an orchid that pays a steep price for its rough treatment of bumblebees plants so desperate for nitrogen they ve taken to catching animals and eating

them poison ivy and the reasons why we might want to exchange our dislike of it for love and a common wildflower that goes through serial sex changes Loons owls falcons eagles and songbirds pour out effusions of apparent ecstasy here along with much about bobcats foxes snowshoe hares beavers and flying squirrels Snakes frogs salamanders and big predatory fish make appearances also as well as fungi that produce light in the dark and bacteria that manipulate the atmosphere to their own advantage even causing rain and snow to fall The Nature of the Place is Kanze's love letter to his home the Adirondacks Gathering materials from his decades long column at the Adirondack Explorer and elsewhere extensively revised and rewritten for this book Kanze's singular meditations on the flora and fauna of his home resonate far beyond his own beautiful beloved biologically vibrant neck of the woods Magill's Encyclopedia of Science : Animal Life: Lemurs-respiration in birds
