## Moral Foundation Of Rights

**AN Whitehead**

## **Moral Foundation Of Rights:**

*The Moral Foundation of Rights* L. W. Sumner, 1987 Sumner constructs both a coherent concept of a moral right and a workable substantive theory of rights to provide the moral foundation necessary to quell controversies about their political and moral applications *Human Rights, Ownership, and the Individual* Rowan Cruft, 2019 Rowan Cruft develops an original theory of rights that partially vindicates this concept's central place in modern moral political and legal thinking. He defends human rights law as institutionalising pre-legal moral rights and he calls into question property as an individual right.

Rethinking Rights Eleanor Curran, 2022-04-04 Rethinking Rights Historical Development and Philosophical Justification takes a new look at the history of individual rights focussing on the way that philosophers have written that history. The scholastics and early modern writers used the notion of natural rights to debate the big moral and political questions of the day such as the treatment of Indigenous Americans under Spanish rule. John Locke put natural rights at the centre of liberal political thought. But as the idea grew in strength and influence empiricist and positivist philosophers punctured it with attacks of logical incompetence and illegitimate appeals to theology and metaphysics. Philosophers then turned to law and jurisprudence for the philosophical analysis of rights where it has largely stayed ever since. Eleanor Curran argues that the dominance of the Hohfeldian analysis of legal rights has restricted our understanding of moral and political rights and led to distorted readings of historical writers on rights. It has also led to the separation of right from the important related notion of liberty. Freedoms are now seen as inferior to claims. Curran looks at recent philosophy of human rights and suggests a way forward for justifying universal moral and political rights and separating them from legal rights. *Human Rights, Human Dignity, and Cosmopolitan Ideals* Professor Amos Nascimento, Professor Matthias Lutz-Bachmann, 2014-04-28. This book makes a significant contribution to the on-going international dialogue on the meaning of concepts such as human rights, humanity and cosmopolitanism. The authors propose a new agenda for research into a Critical Theory of Human Rights. Each chapter pursues three goals to reconstruct modern philosophical theories that have contributed to our views on human rights to highlight the importance of humanity and human dignity as a complementary dimension to liberal rights and finally to integrate these issues more directly in contemporary discussions about cosmopolitanism. The authors not only present multicultural perspectives on how to rethink political and international theory in terms of the normativity of human rights but also promote an international dialogue on the prospects for a critical theory of human rights discourses in the 21st century.

**The Methodist Quarterly Review**, 1878 *Methodist Magazine and Quarterly Review*, 1878 **The Moral Foundation of Right** Paul Guyer, 2025-01-16 Kant defined Right Recht as the condition that obtains among a population of physically embodied persons capable of setting their own ends who live on a finite surface and therefore cannot avoid interaction with each other if each is as free to set their own ends as is consistent with the freedom of all to do the same. He regarded this rational idea heir to the traditional idea of natural Right as the test of the legitimacy of the laws of any actual

state or positive Right He clearly considered Right to be part of morality as a whole namely the coercively enforceable part as contrasted to Ethics which is the non coercively enforceable part of morality Some have questioned whether Right is part of morality but this Element shows how Kant s Universal Principle of Right follows straightforwardly from the foundational idea of Kant s moral philosophy as a whole   **Rights and Duties: The rational foundation of rights and duties** Carl

Wellman,2002   National Teacher ,1873   Human Rights and Moral Reasoning Michael Shortall,2009 This study is a response to the observation of the critical importance of human rights in the ethical discourse of the public sphere Yet despite the broad consensus there exists a plurality of approaches to their exposition and justification each bound to a particular way of moral theology requires that such models be taken seriously To this end it presents a comparative investigation of three theorists each representative of a different tradition of enquiry   **The Academy** ,1887

Ethical Questions and International NGOs Keith Horton,Chris Roche,2010-03-29 In recent decades there has been a great expansion in the number size and influence of International Non Governmental Organisations INGOs involved in international relief and development These changes have led to increased scrutiny of such organisations and this scrutiny together with increasing reflection by INGOs themselves and their staff on their own practice has helped to highlight a number of pressing ethical questions such organisations face such as should INGOs attempt to provide emergency assistance even when doing so risks helping to fuel further conflict How should INGOs manage any differences between their values and those of the people they seek to benefit How open and honest should INGOs be about their own uncertainties and failures This book consists of sustained reflections on such questions It derives from a workshop held at Melbourne University in July 2007 that brought together a group of people for the most part reflective practitioners and moral and political philosophers to discuss such questions It explores honestly some of the current challenges and dilemmas that INGOs face and also suggests some new ideas for meeting these challenges Our hope is that the kind of explicit reflection on the ethical issues INGOs face exemplified in this publication will help to promote a wider debate about these issues a debate that in turn will help INGO managers and others to make better wiser more ethically informed decisions   Human Rights Robert A. Goldwin,1978

The Ohio Educational Monthly ,1873   Moral Rights and Political Freedom Tara Smith,1995 Seeking a way out of today s bewildering rush of rights claims Tara Smith s Moral Rights and Political Freedom offers a systematic account of the nature and foundations of rights The book carefully elucidates what political freedom is and demonstrates why it should be protected by rights Smith s thesis is that rights are teleological respect for freedom is necessary for individuals flourishing or eudaimonia Smith illustrates how many alleged rights would actually undermine that objective Her decisive refutation of the assumption that conflicts between rights are inevitable demonstrating how such conflicts are theoretically incoherent and

practically self defeating should go a long way toward resolving many contemporary disputes about rights      **The National Teacher** ,1873      Ethics in an Age of Surveillance Adam Henschke,2017-07-03 We live in an age of surveillance In this book the moral importance of this is explained through an examination of virtual identities      Lawyers' Reports Annotated ,1919
