Moral Ideals Of Our Civilization:

A Treatise on the Moral Ideals John Grote,1876 *The Moral Ideals of Our Civilization* Radoslav Andrea Tsanoff,1947
Anti-Theory in Ethics and Moral Conservatism Stanley G. Clarke,Evan Simpson,1989-05-28 This volume documents a movement from theory and rules in ethics to an account of morality based on local practice and perception of the particular case The Introduction lays the foundation for this position then the authors draw from the analytic tradition as they forcefully argue against theory derived from different philosophical ancestors In the second half they examine moral conservatism exhibiting how placing moral practice as primary does not restrict one to any form of political conservatism The Moral Ideals of Our Civilization Radoslav A. Tsanoff,1977-04 *The Political Philosophy of Michael Oakeshott* Paul Franco,1990-01-01 The Routledge Companion to the Philosophy of Architectural Reconstruction Zoltán Somhegyi,Lisa Giombini,2024-05-30 This companion investigates the philosophical and theoretical foundations determining the conditions of possibility and the limits that make the conservation readaptation and transformation of past buildings legitimate operations As increasing ecological and economic challenges question opportunities for new construction the process of restoring transforming and readapting buildings for new or continued use is becoming an essential part of architectural practice At the same time the role of building conservation is changing from mere material preservation to being part of a broader strategy for social regeneration eco awareness and inclusive urban planning Chapters of this volume explore the complex set of considerations that inform decisions to merely preserve accurately restore or variously reuse a building They also look at the broader philosophical concerns such as ethical and aesthetic values combined with ideas of heritage history and collective identity Case studies on reconstruction after war gentrification the restoration of ancient edifices reconstruction following the effects of climate change and the use of technology solutions among many others make this a timely and urgent volume Adopting a broad transcultural perspective with contributions from five continents the volume combines theoretical approaches with more practical case study based investigations and will be of great interest to upper level students and academics working in the fields of architecture conservation urban design aesthetics and heritage management The Morality of Nations Hugh Taylor,1888 **International journal of ethics : devoted to the advancement of ethical knowledge and practice** [Anonymus AC02808016],1891 **The Unitarian** Jabez Thomas Sunderland,Brooke Herford,Frederick B. Dauenhauer,2000-01-01 Paul Ricoeur with Rawls Walzer and Habermas as some of his main interlocutors has developed a substantial and distinctive body of political thought On the one hand it articulates a rich conception of the paradoxical character of the domain of politics On the other it provides a fresh approach to such major topics as the

relationship among politics economics and ethics and between concern for universal human rights and respect for cultural plurality His work rooted as it is in Aristotle Kant and Hegel also provides resources for a fruitful rethinking of the issues at stake in the liberal communitarian debate *Market World and Chronicle* ,1915 Christian Advocate ,1918 **A**
