Latter-Day Political Views Jeffrey Carl Fox,2006-01-01 Latter Day Political Views is a formal study of the effect of religion and culture on the political worldviews of practicing Mormons from different races and nationalities Previous studies have focused on Mormons in Utah and found phenomenally high levels of homogeneity in Latter Day Saints LDS political views so much so that Mormons have been considered a distinct ethnic group What author Jeffrey C Fox finds shatters this illusion Here he illuminates how people with different backgrounds are able to not only reconcile various clashing cultural beliefs with Mormon doctrine but also form their own unique political views that differ systematically by race and political culture As the church rapidly expands and becomes more racially and culturally diverse Latter Day Political Views encourages readers to expand their field of vision and understand the impact of Mormon doctrine on the political thought of all its members **BOOK JACKET** **From Fear to Faith** Joel L. There s a stereotype of a young zealous Christian who feels called to the ministry as a pastor goes to seminary and then loses his faith as he studies the writings of all those intellectuals and theologians The stereotype may not be accurate but there are those who fit this description not to mention many who leave home for college as passionate Christians and come home unbelievers More importantly that stereotype represents a fear the fear that too much education or contact with those whose beliefs differ from those of a particular community will cause someone to lose their faith But there s another group much larger but not heard nearly as frequently This group consists of people who have gone from the position of fear that creates the stereotype to a position of faith a faith that is no longer afraid of that outer darkness that looms outside the walls of their religious community Indeed they may not perceive any looming darkness at all From Fear to Faith edited by Travis Milam and Joel L Watts gives voice to that too often unheard group It is a collection of essays from those who have lived in fear have faced the looming dark collided with their share of brick walls but have come out with a new found faith and undismayed trust The journeys of faith presented in this book reveal a group deeply insightful and grounded minds rich in thriving spirituality joy and hope Where there was once trepidation in asking the tough questions of human existence of the divine relationship with creation there is now a certain hope found when these authors have struggled to overcome canyons of fear leaving behind a life of black and white certitude to live in a beautiful world of gray They have learned that having questions

and even doubts does not reflect a lack of faith Rather hiding in fear from the serious questions indicates a lack of faith in the one who said Don t be afraid Come join in this journey from fear to faith *A Year Book of the Church and Social Service in the United States, Prepared for the Commission on the Church and Social Service of the Federal Council of the Churches of Christ in America ... ,1916* *A Year Book of the Church and Social Service in the United States ,1916* *Rough Country*
