## **Morality Of Things:**

*Culture and Morality: Things We Value* Michael Shengtao Wu,Christine Ma-Kellams,Tian Xie,Yanyan Zhang,Yingnan Zhao,2025-03-20 Morality refers to a set of values relating to right conduct against which behavior is judged to be acceptable or unacceptable It is a form of social norms that guides human behaviors Morality forms a fundamental part of our culture but there is a great range of variation in moral standards and the things we value in each given culture Behavior that is completely normal to Westerners such as choosing a job or partner at one's individual will could be considered immoral in other cultures People are rewarded with money and reputations if they exhibit moral actions approved by cultural expectations and are punished by sanctions for moral violations We also attribute positive feedback to people we consider moral e.g. empathetic filial and negative feedback to those we consider immoral untrustworthy disgusting Thus it is important to study the psychological antecedents processes and outcomes of morality

**Humean Moral Pluralism** Michael B. Gill,2014-06-12 Michael B Gill offers an original account of Humean moral pluralism Moral pluralism is the view that there are different ultimate moral reasons for action that those different reasons can sometimes come into conflict with each other and that there exist no invariable ordering principles that tell us how to resolve such conflicts If moral pluralism is true we will at times have to act on moral decisions for which we can give no fully principled justification Humeanism is the view that our moral judgments are based on our sentiments that reason alone could not have given rise to our moral judgments and that there are no mind independent moral properties for our moral judgments to track In this book Gill shows that the combination of these two views produces a more accurate account of our moral experiences than the monistic rationalist and non naturalist alternatives He elucidates the historical origins of the Humean pluralist position in the works of David Hume Adam Smith and their eighteenth century contemporaries and explains how recent work in moral psychology has advanced this position And he argues for the position's superiority to the non naturalist pluralism of W D Ross and the monism of Kantianism and consequentialism The pluralist account of the content of morality has been traditionally perceived as belonging with non naturalist intuitionism The Humean sentimental account of morality has been traditionally perceived as not belonging with any view of morality's content at all Humean Moral Pluralism explodes both those perceptions It shows that pluralism and Humeanism belong together and that they make a philosophically powerful couple

**Extraordinary Questions** Allyn David Mcauley,2010-09 These irreconcilable tensions derive from the same source from the failure of Western rationalism to erect a solid house on a solid

foundation as it promised it would That is Western philosophy promised an elegant structure with the top floor comprised of the gracious rooms for human living the space where man lives happily with man because he understands the cosmic necessity of the moral truths he knows surely what he and his fellow man should do to be fulfilled and happy in the most sublime sense of happiness The discovery by rational science that man is an historical and biological accident convinced the philosopher that moral truths must be relative to unsupported human choice and therefore that our moral certainty would have to be derived from the non scientific realm of faith the realm of religion and art the realm of the non rational Today the good news is that this problem is really almost academic as they say From the late nineteenth century through most of the twentieth the failure of Western rationalism created a great outpouring of thought and expression from thinkers artists scientists and ordinary intellectuals Even the great world wars were often understood in light of this issue Today all is quiet on the Western front The vacuum left by the failure of Western rationalism in regard to human morality seems to have been filled quite nicely by the Judeo Christian and Islamic religions and perhaps they always carried most of the burden for most of us anyway Only in the hallowed halls of our academies if there do earnest students and professors argue over the foundations of human thought and action Now that things are quiet and old controversies are largely ignored if not exactly laid to rest it might be enjoyable to start thinking again For when the entertainment is over and one is alone the mind turns to reflection In this collection of essays Allyn McAuley explores many of the largest themes in Western philosophy from a fresh perspective He believes that both primary branches of contemporary philosophy have lost the original animating spirit of Western thought and attributes this to their implicit acceptance of modern moral relativism Advocating a return to the naive questioning characteristic of our native intelligence the author examines popular views on such diverse issues as abortion ethics the Internet and human freedom extraterrestrial intelligence business theory and international human rights He moves from these topical reflections to offer thoughts on extraordinary questions that he believes are beyond the mastery of any philosopher yet demand the attention of all thinking men and women questions on the nature of truth beauty love happiness and the immortality of the human soul McAuley concludes with the contention that philosophy by itself is insufficient and that the scientific impulse must be supplemented by the artistic sensibility in order to yield true understanding and therefore happiness the goal of human life
