Morality And Citizenship:

Morality and Citizenship in Education John Beck, 1998-07-01 The first section of the book compares and contrasts declinist accounts of the current moral predicament with the somewhat more optimistic approach derived from recent sociological analyses The second section is more directly devoted to the role of schools in educating about values morality and citizenship Specific curricular issues such as the values of enterprise and enterprise culture educating about citizenship and the ambiguities about the meaning of the term spiritual are dealt with in successive chapters

The Ethics of Citizenship in the 21st Century David Thunder, 2017-03-08 This collection of essays offers thoughtful discussions of major challenges confronting the theory and practice of citizenship in a globalized socially fragmented and multicultural world The traditional concept of citizenship as a shared ethnic religious and or cultural identity has limited relevance in a multicultural world and even the connection between citizenship and national belonging has been put in jeopardy by increasing levels of international migration and mobility not to mention the pervasive influence of a global economy and mass media whose symbols and values cut across national boundaries Issues addressed include the ethical and practical value of patriotism in a globalized world the standing of conscience claims in a morally diverse society the problem of citizen complicity in national and global injustice and the prospects for a principled acceptance by practising Muslims of a liberal constitutional order In spite of the impressive diversity of philosophical traditions represented in this collection including liberalism pragmatism Confucianism Platonism Thomism and Islam all of the volume's contributors would agree that the crisis of modern citizenship is a crisis of the ethical values that give shape form and meaning to modern social life This is one of the few edited volumes of its kind to combine penetrating ethical discussion with an impressive breadth of philosophical traditions and approaches Chapters What is the use of an Ethical Theory of Citizenship and An Ethical Defense of Citizenship are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

The Morality of Democratic Citizenship Robert Freeman Butts, 1988 In recent years a number of political

and educational leaders and groups have urged the nation's public schools to place a greater emphasis on teaching civic values and on educating students to become citizens. This book puts forth the civic values and ideas that schools should be teaching. The volume is not a handbook or curriculum guide but is designed to broaden the perspective of curriculum specialists, textbook authors, teachers, and educational policymakers. In the first three chapters of this four-chapter book, the study of and learning about history, the study and learning about constitutional principles, and the study and learning about conceptions of citizenship are examined. The final chapter offers a set of 12 ideas and civic values that should suffuse teaching and learning in the schools. These 12 values are justice, equality, authority, participation, truth, patriotism, freedom, diversity, privacy, due process, property, and human rights. DB

Highly regarded when it was first published in hardback in 2000, the book now appears in paperback for the first time with a new introduction which updates the main ideas and themes of the book.

[Ethics of Citizenship](#) John MacCunn, 2015-06-16.

Excerpt from *Ethics of Citizenship*. The object of the following pages is to connect some leading aspects of democratic citizenship with ethical facts and beliefs. In *The Equality of Men*, justification is sought for the bestowal upon the citizen of civil and political rights as well as for the increased attention given of recent years to questions relating to the distribution of wealth, and this justification is found not in the untenable doctrine that men are equal but in the fact recognised alike in moral and in religious experience that the humblest member of the community possesses a spiritual worth which effectually parts the man from the chattel and the animal.
