Morals In World History:

Morals in World History Archibald Robertson,1947 **The Morals of History** Tzvetan Todorov,1995 The celebrated theorist Tzvetan Todorov offers here a thought provoking study of the complex relationship between ethics and history In exploring such issues as how one practices and assesses equality among different societies Todorov confronts topics ranging from the conquest of America and nineteenth century colonialism to democracy and conflicts of the Self versus the Other

The Invention of Good and Evil Hanno Sauer,2024-09-17 What makes us moral beings How do we decide what is good and what is evil In the vein of *Sapiens* comes a grand history of our universal moral values at the moment of their greatest crisis How did we learn to distinguish good from evil Have we always been capable of doing so And will we still be in the world to come In this breathtaking book ethics expert Hanno Sauer offers a great universal history of morality in the era of its darkest crisis He finds that morality existed long before there was talk of God religion or philosophy Its history is first of all the fruit of a process of natural selection going back to the dawn of humanity in the forests of East Africa which five million years ago thinned out owing to climate change Among the early humans that came down from the trees there were also our ancestors who adapted to open spaces by organizing themselves into large groups Under the pressure of environmental factors morality emerges as the foundation for cooperation a quality that is as precarious as it is essential to the survival of the species Moving between paleontology and genetics psychology and cognitive science philosophy and evolutionism Sauer traces a genealogy of morality and along the journey marks the main moral transformations in the history of humanity In the end he concludes that millions of years of stratifications has led to the moral crisis of our present and the only way to build a future together is to retrace our history A Companion to Global Historical Thought Prasenjit

Duara,Viren Murthy,Andrew Sartori,2014-01-21 A COMPANION TO GLOBAL HISTORICAL THOUGHT A Companion to Global Historical Thought provides an overview of the development of historical thinking from the earliest times to the present directly addressing issues of historiography in a globalized context Questions concerning the global dissemination of historical writing and the relationship between historiography and other ways of representing the past have become important not only in the academic study of history but also in public arenas in many countries With contributions from leading international scholars the book considers the problem of the global in the multiplicity of traditions of narrating the past in the global dissemination of modern historical writing and of the global as a concept animating historical imaginations It explores the different intellectual approaches that have shaped the discipline of history and the challenges posed by modernity and globalization while illustrating the shifts in thinking about time and the emergence of historical thought Complementing A Companion to Western Historical Thought this book places non Western perspectives on historiography at the center of discussion helping scholars and students alike make sense of the discipline at the start of the twenty first century *World History and National Identity in China* Xin Fan,2021-02-25 Nationalism is pervasive in China today Yet

nationalism is not entrenched in China's intellectual tradition. Over the course of the twentieth century the combined forces of cultural, social, and political transformations nourished its development, but resistance to it has persisted. Xin Fan examines the ways in which historians working on the world beyond China from within China have attempted to construct narratives that challenge nationalist readings of the Chinese past and the influence that these historians have had on the formation of Chinese identity. He traces the ways in which generations of historians from the late Qing through the Republican period through the Mao period to the relative moment of opening in the 1980s have attempted to break cross-cultural boundaries in writing an alternative to the national narrative.

Paul Ricoeur and Contemporary Moral Thought William Schweiker, John Wall, David Hall, 2020-10-28 This book explores and proposes new avenues for contemporary moral thought. It defines and assesses the significance of the writings of French philosopher Paul Ricoeur for ethics. The book also explores what matters most to persons and how best to sustain just communities.

Hegel's Theory of Responsibility Mark Alznauer, 2015-02-19 A crucial aspect of Hegel's practical philosophy is his theory of responsibility. This theory is both original and radical in its emphasis on the role and importance of social and historical conditions as a context for our actions. But even those who agree that there is something valuable in Hegel's emphasis on sociality are not in agreement about what that something is or about how Hegel argues for it. Mark Alznauer offers the first book-length account of the structure of the theory and its place within Hegel's thought as a whole. The reader is carefully walked through the psychological, social, and historical aspects of responsibility in Hegel's texts. The book demonstrates that attention to the concept of responsibility reveals the true nature of Hegel's controversial claims about the inherent sociality of human action.

The Philosophy of History Georg Wilhelm Friedrich Hegel, 1900 **Kant's Moral Metaphysics** Benjamin J. Bruxvoort Lipscomb, James Krueger, 2010 Main description Recent interpreters of Kant's moral philosophy and contemporary advocates of neo-Kantian moral theories generally minimize the importance of Kant's metaphysical beliefs. This volume re-evaluates these minimizing approaches, exploring Kantian positions on such topics as the relation between God and ethics, the metaphysics of human freedom, and the possibility of knowledge of God. This volume is the first to examine all

of these topics within the context of Kant's ethical writings New approach to Kant's moral philosophy International renowned authorship The Principles of the Moral Empire Kōjirō Sugimori,1917 The Method of the Divine Government, Physical and Moral James McCosh,1882 **Moral Mappings of South and North** Peter Wagner,2017-06-02 The term Global South marks a new attempt at providing order and meaning in the current global political constellation replacing the term Third World But the term Global South is fraught with many ambiguities This book explores the possible meanings of this new distinction and assesses the advantages and disadvantages of adopting it for understanding the contemporary world It casts a wide exploratory net addressing historical transformations of world interpretation and wider cultural intellectual meanings
