## More Adding It Up

**Vermont. State Board of Agriculture**

## More Adding It Up:

**Adding It Up** National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Mathematics Learning Study Committee, 2001-11-13 Adding It Up explores how students in pre K through 8th grade learn mathematics and recommends how teaching curricula and teacher education should change to improve mathematics learning during these critical years. The committee identifies five interdependent components of mathematical proficiency and describes how students develop this proficiency. With examples and illustrations the book presents a portrait of mathematics learning. Research findings on what children know about numbers by the time they arrive in pre K and the implications for mathematics instruction. Details on the processes by which students acquire mathematical proficiency with whole numbers, rational numbers and integers as well as beginning algebra, geometry, measurement and probability and statistics. The committee discusses what is known from research about teaching for mathematics proficiency focusing on the interactions between teachers and students around educational materials and how teachers develop proficiency in teaching mathematics.
