**What More Do You Want?** Albert Low, 2013-04-09 All readers both novice and longtime practitioners will encounter in this book new answers and new questions to the what why and how of Zen practice. We've all had moments in our lives when we've thought 'Something is missing. There must be more to life than this.' It is this sense that often brings people to the practice of Zen. By turning to Zen they acknowledge that this something lies not in externals but rather in seeking to transcend desire and attachment. The journey toward that transcendence begins with questioning and questions will be part of the path until awakening is attained. In 'What More do You Want' a fascinating new book by renowned Zen master Albert Low he addresses some of the questions students have posed about the practice of Zen. Why do we practice? Why should we seek to understand our reasons for practicing? How can we distinguish between true and false practice? What is awakening? In addition Low shares with his readers four teishos talks that comment on a text or koan in order to enhance meditation practice on zazen or seated meditation on pain and suffering and on the very nature of practice itself. Finally Low shares with readers an experience of satori a glimpse into Buddha nature.
