More Atheist Stories David Rogers, 2002-03 **The Atheist's Guide to Reality** Alex Rosenberg, 2011-09-26 A book for nonbelievers who embrace the reality driven life We can't avoid the persistent questions about the meaning of life and the nature of reality Philosopher Alex Rosenberg maintains that science is the only thing that can really answer them all of them His bracing and ultimately upbeat book takes physics seriously as the complete description of reality and accepts all its consequences He shows how physics makes Darwinian natural selection the only way life can emerge and how that deprives nature of purpose and human action of meaning while it exposes conscious illusions such as free will and the self The science that makes us nonbelievers provides the insight into the real difference between right and wrong the nature of the mind even the direction of human history The Atheist's Guide to Reality draws powerful implications for the ethical and political issues that roil contemporary life The result is nice nihilism a surprisingly sanguine perspective atheists can happily embrace

The Atheist's Mass and Other Stories Honoré de Balzac, 1896 **1 + 1 = God** Michael Pietrzyk, 2017-06-15 What do you do when family and friends doubt the existence of God How do you respond and are your Christian core beliefs on solid ground Mike decided to research the atheist beliefs and confirm his natural belief in God and Jesus Over three years Mike read no less than eighty four books by both Christian and atheist authors and reviewed multiple debates between Christians and atheists In doing so he established his common sense viewpoints that God's wisdom is present in this Universe Mankind Salvation and the Supernatural This book is a compilation of Mike's common sense viewpoints which are simple to understand They are substantiated through the research writings of various Christian authors The main concern of this book is that when your spirit leaves this life you will have eternal happiness in the presence of Jesus Validation of Mike's confirmation is his own supernatural experience of God's protection which was outside the boundaries of science The atheist premise that nothing happens outside the rules of science falls apart with Mike's experience and the experiences of many many others This book is an excellent source not just if you are searching for answers about Christianity and atheism but it's an affirmation that God is love *Letters to an Atheist* Peter Kreeft, 2014-09-30 In *Letters to an Atheist* esteemed philosopher and author Peter Kreeft corresponds with a young atheist who is wrestling with the question of God Together they work through some of the primary reasons people don't believe in God including violence committed in the name of religion the problem of evil and more They also discuss many of the reasons for belief including love miracles and the relationship between religion and science The debate between atheists and theists today is often strident and angry and understandably so the debate encompasses fundamental questions about how we live our lives As Kreeft writes if God does not exist then religion is the biggest hoax the biggest myth the biggest lie in the history of the world However *Letters to an Atheist* showcases a respectful exploration of some of life's biggest questions trying to understand the opposing point of view With characteristic warmth and clarity Kreeft's letters offer believers and non believers alike much to consider *More*

Macdonald. With philol. int. and notes by J. Morrison Barlaam,1895 Atheist Tales Dan Barker,Earl Lee,David M. Fitzpatrick,2011-02 For centuries adherents of the world s religions have had plenty of fiction to enjoy Pick up any holy book and you ll find an entertaining collection of silly fantasies yet millions of people believe them and base their entire lives around them It would be funny if the world weren t run and constantly imperiled by these religions as it has been since man first made up stories to explain the unexplainable Now comes Atheist Tales a collection of speculative fiction stories with themes to appeal to the disbeliever After all if the religious folks can have their books of fairy tales why can t we have a few of our own Unlike those fairy tales the stories herein weren t written by primitive cultures and they aren t intended to run your life They aren t numbered by chapter and verse and you don t have to memorize certain passages and ignore the contradictions and absurdities They don t impart directives from imaginary deities nor do they instruct on how to punish sinners And they don t pretend to be true This is fiction not lies But they do entertain and they do make you think about what could happen to the world if those of us who choose reason and intellect over delusional fanaticism don t combat the insanity and it s allowed to grow even more out of control Worshiping the authors of these stories is optional but we don t recommend it **A story of two years; or, Gertrude Ellerslie** Meldrum,1882 **The Academy** ,1891 **Good Housekeeping** ,1929 **Unity** ,1927 The Current Digest of the Soviet Press ,1958-11 The Bookman ,1906 The country doctor.
