Digital Literacies for Learning Allan Martin, Dan

Madigan, 2006 In the 21st century digital tools enable information to be generated faster and in greater profusion than ever before to the point where its extent and value are literally beyond imagining Such quantities can only be meaningfully addressed using more digital tools and thus our relationship to information is fundamentally changed This situation presents a particular challenge to processes of learning and teaching and demands a response from both information professionals and educators Enabling education in a digital environment means not only changing the form in which learning opportunities are offered but also enabling students to survive and prosper in digitally based learning environments This collection brings together a global community of educators educational researchers librarians and IT strategists to consider how learners need to be equipped in an educational environment that is increasingly suffused with digital technology Traditional notions of literacy need to be challenged and new literacies including information literacy and IT literacy need to be considered as foundation elements for digitally involved learners Leading international experts from the USA Canada Australia New Zealand South Africa Mexico and throughout Europe contribute to the debate and Hannelore Rader Librarian and Dean of the University Libraries University of Louisville Kentucky provides the foreword The book is in two parts In Part 1 Literacies in the Digital Age the contributors analyse how digital technologies have enabled transformative change in the ways in which learning can be constructed and discuss the nature of the new literacies that have emerged in this new virtual and e learning environment In Part 2 Enabling and Supporting Digital Literacies the contributors go on to consider the ways in which digital literacies can be made available to learners and how these literacies are being relocated in a more student centred environment within the broader perspective of learning Readership This book takes the issues raised in the successful

Information and IT Literacy also co edited by Allan Martin into a broader context It is essential reading for all information professionals and educators involved in developing strategies and practices for learning in a digital age Digital Literacy Unpacked Katharine Reedy,Jo Parker,2018-05-01 Digital Literacy Unpacked not only offers a snapshot of innovative approaches to digital literacy but also intends to provoke discussion encourage collaboration and inspire whatever the role or context DIGITAL LITERACY MADE EASY FOR TOTAL BEGINNERS DEVIN J. RADEMACHER, Feeling confused overwhelmed or left behind by technology You are not alone Many everyday users struggle with devices apps and online tools and worry about making mistakes losing data or falling for scams This book was written to remove that fear and replace it with calm clear understanding Digital Literacy Made Easy for Total Beginners explains technology in plain language without jargon or assumptions It guides you step by step through how modern devices apps and online tools actually work in real life You do not need prior experience You only need the desire to feel confident and in control Instead of complex explanations this guide focuses on practical use You will learn what to do why it matters and how to avoid common problems By the end everyday tasks like using apps managing files staying safe online and fixing simple issues will feel natural and manageable This book stands out because it is designed specifically for beginners who want clarity not confusion Real world examples safety tips and simple habits help you build confidence that lasts INSIDE THIS BEGINNER FRIENDLY GUIDE YOU WILL LEARN HOW TO Understand devices without technical jargon Set up phones tablets and computers correctly Use apps confidently without fear of mistakes Navigate the internet safely and efficiently Recognize scams fake links and online risks Create strong passwords and protect your privacy Manage files photos and documents with ease Use email messaging and video calls properly Fix common problems without panic Keep devices running smoothly over time Learn new tools safely on your own Avoid beginner mistakes that cause frustration Stay productive with simple digital tools Help family members with basic tech skills Build smart habits that save time and stress Adapt to updates and changes calmly Become independent and confident with technology Whether you are a complete beginner returning learner student parent or senior this book meets you where you are and moves at your pace Take the first step toward digital confidence today and start using technology with ease safety and peace of mind DISCLAIMER This book is an independent publication and is not affiliated with endorsed authorized or sponsored by any company or service mentioned All trademarks and names belong to their respective owners

Learning in times of COVID-19: Students', Families', and Educators' Perspectives Sina Fackler,Timo Gnambs,Karin Gehrre,Kathrin Lockl,Ariel Mariah Lindorff,Karin Sørli Street,2022-06-03

Literacy in a Digital World Kathleen Tyner,2014-04-08 In this book Kathleen Tyner examines the tenets of literacy through a historical lens to demonstrate how new communication technologies are resisted and accepted over time New uses of information for teaching and learning create a disconnect in the complex relationship between literacy and schooling and

raise questions about the purposes of literacy in a global networked educational environment The way that new communication technologies change the nature of literacy in contemporary society is discussed as a rationale for corresponding changes in schooling Digital technologies push beyond alphabetic literacy to explore the way that sound image and text can be incorporated into education Attempts to redefine literacy terms computer information technology visual and media literacies proliferate and reflect the need to rethink entrenched assumptions about literacy These multiple literacies are advanced to help users make sense of the information glut by fostering the ability to access analyze and produce communication in a variety of forms Tyner explores the juncture between two broad movements that hope to improve education educational technology and media education A comparative analysis of these two movements develops a vision of teaching and learning that is critical hands on inquiry based and suitable for life in a mobile global participatory democracy

The Ethics of Digital Literacy Kristen Hawley Turner, 2019-12-31 The digital era has brought many opportunities and many challenges to teachers and students at all levels Underlying questions about how technologies have changed the ways individuals read write and interact are questions about the ethics of participation in a digital world As users consume and create seemingly infinite content what are the moral guidelines that must be considered How do we teach students to be responsible ethical citizens in a digital world This book shares practices across levels from teaching elementary students to adults in an effort to explore these questions It is organized into five sections that address the following aspects of teaching ethics in a digital world ethical contexts ethical selves ethical communities ethical stances and ethical practices

Understanding Digital Literacies Rodney H. Jones, Christoph A. Hafner, 2012-05-31 Assuming no knowledge of linguistics Understanding Digital Literacies provides an accessible and timely introduction to new media literacies It supplies readers with the theoretical and analytical tools with which to explore the linguistic and social impact of a host of new digital literacy practices Each chapter in the volume covers a different topic presenting an overview of the major concepts issues problems and debates surrounding the topic while also encouraging students to reflect on and critically evaluate their own language and communication practices Features include coverage of a diverse range of digital media texts tools and practices including blogging hypertextual organisation Facebook Twitter YouTube Wikipedia websites and games an extensive range of examples and case studies to illustrate each topic such as how blogs have affected our thinking about communication how the creation and sharing of digital images and video can bring about shifts in social roles and how the design of multiplayer online games for children can promote different ideologies a variety of discussion questions and mini ethnographic research projects involving exploration of various patterns of media production and communication between peers for example in the context of Wikinomics and peer production social networking and civic participation and digital literacies at work end of chapter suggestions for further reading and links to key web and video resources a companion website providing supplementary material for each chapter including summaries of key issues

additional web based exercises and links to further resources such as useful websites articles videos and blogs This book will provide a key resource for undergraduate and graduate students studying courses in new media and digital literacies

Digital Literacy Paul Gilster, 1998-04-03 Readers leery of ramping onto the information highway and surfers suffering Internet overload will value the solid advice supplied by Gilster Booklist Paul Gilster's intelligent sobering look at the Internet is a breath of fresh air Amazon.com This book sheds light on the skills that Web surfers need to separate the digital garbage from the golden nuggets of good data It's a good place to start for adult newcomers to the information highway Courant Now in paper Digital Literacy provides Internet novices with the basic thinking skills and core competencies they'll need to thrive in an interactive environment so fundamentally different from passive media PAUL GILSTER Raleigh North Carolina is the author of The Web Navigator and Finding It on the Internet which have sold over 200 000 copies
