Digital Literacy Pro:

Strategies Of Digitalization And Sustainability In Agrifood Value Chains Isabelle Piot-Lepetit, Fatima El Hadad-Gauthier, 2025-03-04 Nowadays stakeholders of agrifood value chains are developing specific strategies regarding their sustainable transformations supported by digital technologies. These strategies are designing new activities within and outside the whole value chains and in each of their specific segments such as raw products supplies and machinery production transformation transportation and logistics distribution retail and consumption. The strategies developed by agrifood stakeholders related to the digitalization for more sustainability of their practices and activities are changing the way stakeholders are interacting and fuel in one way or another new reconfigurations of value chains. Most often sustainability initiatives explore new value added activities goods and services while digital initiatives acknowledge the opportunities resulting from the use of digital solutions such as sensors the Internet of Things e commerce platforms blockchain or robots and advanced data analytics based on big data cloud computing technologies or artificial intelligence applications. Digital and sustainable transformations have been explored in the literature for some time now by considering either the changes involved in farms companies and business activities or the necessary adjustments of the economic and regulatory environments. However the setting up of strategies related to the digitalization for sustainable agrifood value chains has not often been investigated.

New Technology in Education and Training Jon-Chao Hong, 2025-07-22 This book presents selected papers from the 6th International Conference on Advances in Education and Information Technology AEIT 2025 held in Fukuoka Japan from January 10-12 2025. With a worldwide increase in the development of new technology such as artificial intelligence AI and extended reality to enhance learning in school and industry settings there is a progressive need to study the implementation of new technology in education and training. Of global concern in this area include issues such as teaching approaches classroom management and the evaluation of learning effectiveness. This book examines these topics and serve as a useful resource for beginner educators academics entrepreneurs and professionals who are working in the field of implementing new technology in education and training.

Open Access as a Knowledge Platform for Implementing the United Nations Sustainable Development Goals Tanupriya Choudhury, Amit Awasthi, Jung-Sup UM, 2025-09-26 This book incorporates the in depth discussion on Open Access OA and Sustainable Development Goals SDGs set up by the United Nations and how OA expedites the progress toward the United Nations SDGs. Primary target audience are the scholars policymakers practitioners and supporters offering valuable insights into using OA to solve global problems. The book starts with basic understanding explaining the basics of OA how it connects to the SDGs and showing examples of successful OA projects. The book highlights the role of open data in fostering innovation for sustainability including specific instances where openly accessible datasets have stimulated innovation for sustainable development. The book looks at how OA lines up with specific SDGs like quality education good health infrastructure etc. It also looks at the rules and plans.

needed to get more people using OA and predicts where OA is headed in the future for sustainable development. It also discusses the impact of open educational resources in democratizing learning globally as well as the role of OA medical research in advancing health equity. The book also investigates how collaborative research platforms contribute to building green technology and bridging gender gaps in knowledge dissemination. Additionally, it discusses how free information exchange enables sustainable agriculture practices and how community-based participatory research archives empower local communities. The book also discusses the role of shared environmental studies and accessibility to legal and policy frameworks in promoting justice and climate action. Each chapter not only gives ideas but also offers practical instructions for using OA to share knowledge, work together across different fields, and make decisions based on facts that things are really important for reaching SDGs. Successful case studies are also presented to understand the benefits and drawbacks of OA, especially by considering the SDGs. The book acknowledges the challenges of OA implementation.

Creating and Promoting Lifelong Learning in Public Libraries Donna L. Gilton, 2016-06-21. *Creating and Promoting Lifelong Learning in Public Libraries: Tools and Tips For Practitioners* is the sequel to *Lifelong Learning in Public Libraries: Principles, Programs, and People*. On the one hand, *Lifelong Learning in Public Libraries* focuses on the information needs and the developmental and psychological characteristics of diverse library users of all ages. It endorses the use of ILI to promote lifelong learning in public libraries both by borrowing techniques from academic and school libraries and by building on existing public library traditions of programming and outreach. This book also compares lifelong learning in public libraries to informal and nonformal education in museums, community organizations, and agencies, places of worship, and other organizations. In addition, *Lifelong Learning in Public Libraries* describes basic steps that librarians can execute in order to get started. On the other hand, *Creating and Promoting Lifelong Learning in Public Libraries* focuses much more on how public librarians can specifically plan and implement their instruction, with chapters on planning for instruction using teaching methodologies, teaching with and about technology, and bringing ILI together with more traditional public library services, programming, and activities such as reference and Readers Advisory services, bibliotherapy, and cultural and literacy programming. Changes in ILI standards and comparisons of ILI with basic reading, media, digital, and cultural literacies are also described. Both books together should act as basic manuals for public librarians who promote lifelong learning. *Creating and Promoting Lifelong Learning in Public Libraries* also have helpful teaching hints for all librarians and other professionals who teach in a variety of settings.

Broadband Strategies Handbook Tim Kelly, Carlo Maria Rossotto, 2012-03-16. This guide identifies issues and challenges in broadband development, analyzing potential solutions to consider and providing practical examples from countries that have addressed broadband-related matters.

Rethinking the Pedagogy of Sustainable Development in the AI Era Chinedu, Caleb Chiidozie, Mafarja, Nofouz, Hussein, Mahmood H., Saleem, Atif, 2025-03-14. Artificial intelligence (AI) technologies can transform the teaching and learning of sustainable development. AI-driven innovative approaches can

transform traditional educational practices and encourage experimentation with and development of novel strategies that harness AI's capabilities to enhance sustainability education. By incorporating practical strategies for integrating AI into sustainability education across various contexts, teachers may foster a new generation of learners equipped to contribute to a sustainable future. Additionally, the use of AI allows teachers to foster a culture of continuous improvement and creativity. Rethinking the Pedagogy of Sustainable Development in the AI Era explores the transformative potential of artificial intelligence AI in the context of sustainable development education. It examines how AI technologies can be leveraged to enhance the pedagogy of sustainability, offering new methods, tools, and approaches to empower learners with the necessary skills and knowledge to address global sustainability challenges. Covering topics such as circularity, power systems, and vocational pedagogy, this book is an excellent resource for educators, curriculum developers, administrators, policymakers, sustainability practitioners, professionals, researchers, scholars, academicians, and more.

Digital Nations - Smart Cities, Innovation, and Sustainability Arpan Kumar Kar, P. Vigneswara Ilavarasan, M.P. Gupta, Yogesh K. Dwivedi, Matti Mäntymäki, Marijn Janssen, Antonis Simintiras, Salah Al-Sharhan, 2017-11-03. This book constitutes the refereed conference proceedings of the 16th IFIP WG 6.11 Conference on e-Business, e-Services, and e-Society I3E 2017 held in Delhi, India, in November 2017. The 45 revised full papers presented were carefully reviewed and selected from 92 submissions. They are organized in the following topical sections: Adoption of Smart Services; Assessment of ICT-Enabled Smart Initiatives; Analytics for Smart Governance; Social Media and Web 3.0 for Smartness; and Smart Solutions for the Future.

Recent Trends in Artificial Intelligence and IoT Rajesh Kumar Tiwari, D.K. Singh, 2025-10-30. This volume constitutes revised selected papers of the Second International Conference on Recent Trends in Artificial Intelligence and IoT ICAII 2024 held in Jamshedpur, India, during October 25-26, 2024. The 34 full papers presented in this volume were carefully reviewed and selected from 157 submissions. They were grouped into the following topics: Artificial Intelligence; Internet of Things; and Blockchain.

Welcome to Cyberschool David Trend, 2001-07-11. Welcome to Cyberschool is a book about two highly charged and often emotional discussions in today's society. One concerns the optimism and promise surrounding information technologies of computers and the Internet; the other involves the growing pessimism and despair about the nation's schools. These narratives of technological optimism and educational pessimism converge with increasing frequency as school groups, community leaders, and political rivals battle each other over the best way to wire the nation's schools, computerize every classroom, and leave no child behind. Welcome to Cyberschool is the first book-length analysis of this confluence of technology and education in the information age.

Strategies for Digital Literacy Professional Development Amy C. Gibbs, 2019.

Digital Literacy Paul Gilster, 1998-04-03. Readers leery of ramping onto the information highway and surfers suffering Internet overload will value the solid advice supplied by Gilster. Booklist.
