The Maverick Moon ,1979 Luke Skywalker and his crew of Planetary Pioneers attempt to destroy a moon which has been blasted out of its orbit and threatens to collide with their planet *Star Wars* ,1979-01-01 [The Cambridge Guide to the Solar System](#) Kenneth R. Lang,2003-09-25 The Cambridge Guide to the Solar System provides a comprehensive and up to date description of the planets and their moons Writing at an introductory level appropriate for high school and undergraduate students Professor Lang leads the reader on a fascinating journey of exploration to the worlds beyond our home planet Earth The book begins with a short introduction to the history of planetary observation and discovery The major planets and their moons are then introduced by presenting common properties processes and themes This is followed by chapters which focus on individual planets and other solar system objects including a comprehensive treatment of the various space missions from the Apollo missions to the Moon to recent missions to Jupiter and Mars Filled with vital facts and information and lavishly illustrated in colour throughout this book will also appeal to professionals as well as general readers with an interest in planetary science **Your Security in South Africa** Craig B. Roseveare,2017-09-11 This book is primarily about securing your home against potential unwanted intruders and keeping your family safe The rise in violent crime affecting my country stems directly from an increase in criminal behavior and farm attacks resulting in loss of innocent lives in my country The message in this book goes out to all innocent law abiding citizens of South Africa It is time to take a stand and prepare yourselves against becoming victims of the lawlessness plaguing our country The authorities themselves face great challenges numerous obstacles and insufficient support As a result we are losing the battle against all crime and particularly violent crime It is now up to individual citizens to change their mind set and become unbeatable adversaries of the criminal element I dont advocate vigilantism or breaking the law in order to achieve this What I suggest instead is that people need to develop the mental and physical skills to avoid violence in the first place and then if necessary use a level of violence higher than that which would be imposed on them in a conflict situation 2011, [南非安全指南](#)
